SUBJECT: USE OF SCHOOL FACILITIES, MATERIALS AND EQUIPMENT

Eligibility

The use of school facilities is under the control and supervision of the Board of Education. The Board has adopted policies, regulations and procedures pertaining to the use of school facilities, which apply only as they may be interpreted to conform with the provisions set forth in Section 414 of the Education Law. Facilities may be used for the purpose of instruction in any branch of education of the arts and/or for holding social, civil and recreational meetings and entertainment, as long as such meetings are non-exclusive and open to the general public.

Inasmuch as the district facilities have been built with public funds and are supported by the citizens of the community, the Board of Education wishes to do all that is possible, consistent with the provisions of the New York State Education Law, to make school facilities available to community organizations.

NOTE: No association or organization is entitled, as a matter of right, to use school facilities. Those wishing to use school facilities must apply in writing and in advance for approval of the Board of Education or its designee. The Superintendent of Schools, or his/her designated representative may grant permission for use of school facilities.

The right to revoke a permit at any time is reserved by the Board of Education. The Superintendent may suspend the permit pending action by the Board of Education at its subsequent meeting.

Proceeds

Facilities may be used for meetings and entertainment purposes where admission fees are charged, provided the proceeds are to be expended for a clearly designated educational or charitable purpose. Whenever an admission fee of any type is charged, all responsibility for admissions tax settlement rests solely with the sponsoring group.

All profit from any enterprise held in public school buildings must go to the benefit of some specific educational charitable purpose, and not be used for the gain of a particular organization or group. The Education Law expressly prohibits the use of school buildings for personal profit or advantage, except for activities of Veterans groups and volunteer firemen, who may be granted the use of facilities, even though the admission fees will be devoted to the use of said organizations.

Organizations charging admission fees need not turn over the entire proceeds for an educational or charitable purpose, but may first deduct the actual and reasonable expenses for such a program.
