

SUBJECT: HOME INSTRUCTION (HOME SCHOOLING)

The School District will attempt to cooperate with parents who wish to provide home instruction for their children. The child who is educated at home should receive an education in a manner consistent with an educational plan and at least substantially equivalent to that given to students of like age and attainments in the local public schools. The required subjects should be taught in a competent, systematic, and sequential manner, specifically in relation to the required courses as enumerated in Commissioner's Regulation Section 100.10.

Primary responsibility for determining compliance with Commissioner's Regulations addressing home instruction rests with the Superintendent of Schools of the school district in which a home-instructed student resides.

Provision of Services to Home-Instructed Students

They are not awarded a high school diploma. A high school diploma may only be awarded to a student enrolled in a registered secondary school who has completed all program requirements set by the Board of Regents, the school or the District.

a) Extracurricular Participation

Students instructed at home are *not* eligible to participate in interscholastic sports. Commissioner's Regulations mandate that only students enrolled in the public school are allowed to participate in interscholastic sports. However, the School District *does* permit home-instructed students to participate in intramural and other school-sponsored extracurricular activities.

b) Textbooks and Materials

The District is not required to loan available textbooks and other materials (e.g., library materials, microscopes, computer software, movie projectors) to home-instructed students.

c) Health Services

The School District is *not required* to furnish health services.

d) Remedial Programs

The District *is not responsible* for providing remedial programs.

SUBJECT: HOME INSTRUCTION (HOME SCHOOLING) (Cont'd.)e) Career and Technical/Gifted Education

The District is *not authorized* to provide Occupational and Vocational Education programs (career and technical education) nor programs for the Gifted to home-instructed students.

f) Special Education Services

Solely for the purpose of Education Law Section 3602-c, home-instructed students with disabilities are deemed to be students enrolled in and attending a non-public school, which enables them to receive special education services.

The Committee on Special Education (CSE) will develop an Individualized Education Services Program (IESP) for the student. The IESP shall be developed in the same manner and with the same content as an IEP. The Board of Education will determine a location where special education services are to be provided to a home-instructed student. This location may, but is not required to be, in the student's home.

g) Use of School Facilities

Students instructed at home shall be allowed to use school facilities provided that there is a mutual agreement on the part of all involved parties.
