Dear Parents,

As we continue to look for ways to enhance the safety of students in our schools, we have introduced a new feature on our website. It is an *Anonymous Tip Reporting* tool through which students, parents, employees or community members can submit potential school security threats. We believe that this tool will help open up lines of communication that will allow additional opportunities for individuals to share information they believe is vital to keeping our children safe. Although we always recommend that individuals directly contact the police with reports related to an immediate threat or danger, this mechanism can be very useful for information or tips that are not necessarily time sensitive but are still considered specific to student safety. Information submitted will be reviewed by administration during the following school day.

If you have any questions related to this new tool, please do not hesitate to reach out to us.

Sincerely,

A handwritten signature in blue ink, appearing to read "Tonie McDonald", followed by a horizontal line.

Tonie McDonald, Ed.D.
Superintendent of Schools
