April 28, 2020

Dear Parents and Guardians,

We are happy to update you with information regarding our remote learning structure. Students and teachers are hard at work utilizing Edmodo as our base platform for remote instruction and IEP services. As a district we have continued to enhance our remote instruction and IEP services moving through different phases such as incorporating 2 instructional videos weekly. In addition to Edmodo, many providers have utilized programs such as zoom, flipgrid, screentastic, to name a few.

As we continue to enhance remote instruction/services, providers and teachers will be providing Live Hours. More information will be coming from the district regarding the schedule and roll out of these live hours. These Live Hours will be in addition to the instruction/services presented through Edmodo and the various programs staff is already providing. However, these may include sessions of live group and individual instruction/services.

If you are uncomfortable having your child participate in a live group scenario please email your building psychologist or special education chairperson and inform them that you do not want your child to participate in live group services.

As always, the Levittown District is here to support you and your child. Please reach out if you have questions or concerns.

Further information regarding Corona Virus, contact information, and the District's remote learning can be found on the District website at <http://www.levittownschoools.com/resources/parent/corona-virus/>

Sincerely,

*Susan Farber*
