Summer 2020

Dear AP Capstone Student,

I am thrilled to be undertaking this new program with you! In order to start the year off on the right foot, you will have to enter class in September prepared and ready to learn.

Over the summer, you will be required to read George Orwell's *1984*. You are required to annotate the book with post-its as you read, being careful to identify important themes, literary devices, and similarities to American society in 2019. The book will serve as a springboard for our initial discussions and assignments, and you will want to have interacted with the text thoughtfully.

The year ahead should prove to be stimulating, rewarding, and certainly an educational journey. Remember the importance of first impressions and please come ready to learn!

Sincerely,

Ms. Lacey

AP Capstone Seminar Teacher
