

Levittown Public Schools

2026 Summer Projects

Presentation to the Board of Education

September 16, 2026

Summer Projects 2026

The Buildings and Grounds Department completed an extensive program of capital improvements, contracted services, and in-house projects during summer 2026. Despite several unforeseen challenges, every school building was ready to open the first day of school. Students and staff returned to clean, fully prepared facilities featuring significant improvements to classrooms, corridors, site infrastructure (parking and sidewalks), and specialized instructional spaces. Some projects still require additional punch-list work, which our teams are completing during second-shift hours after the school day concludes.

Northside Elementary School

Comprehensive summer capital improvements and facility modernizations across campus.

Exterior & Infrastructure

- New roofing installation
- Extensive masonry repairs
- Concrete sidewalk replacement
- Concrete curb replacement
- Additional drainage
- Asphalt parking lot replacement and expansion.

Interior Flooring Upgrades

- Asbestos abatement of hallway and classroom floor tile
- Installation of modern vinyl LVT flooring throughout all hallways and multiple classrooms

Classrooms & Grounds

5th Grade Classroom Overhaul:

- New ceiling and lighting
- New flooring & paint
- New student furniture

Outdoor Recreation:

- Exterior basketball court/recess area construction in rear playground

Northside Elementary School: Parking Lot Replacement

New pavement, striping, and accessibility improvements enhanced parking and traffic flow.

Project Overview

- Full parking lot & pavement replacement
- High-visibility parking space striping
- ADA compliant accessibility enhancements

Key Improvements

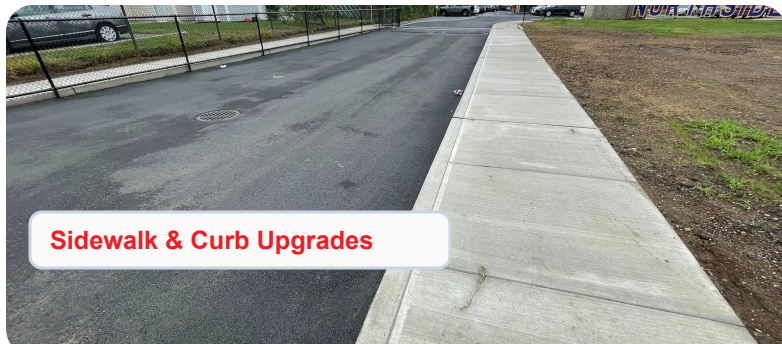

- Optimized vehicle navigation & drop-off flow
- Expanded parking capacity for staff & visitors
- Safer pedestrian pathways & crosswalk access

Northside: Site Improvements

New sidewalks, expanded parking, fencing, and pavement markings improved the campus site.

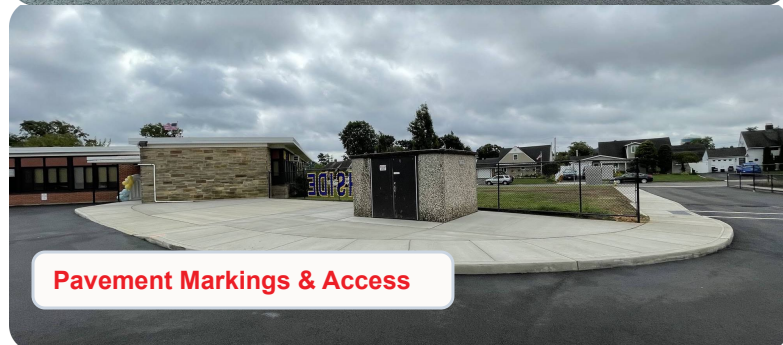

Sidewalk & Curb Upgrades

Expanded Parking Area

Perimeter & Security Fencing

Pavement Markings & Access

Northside: Site Improvements

Campus rear parking infrastructure and accessibility improvements

Rear lot expansion

- Capturing some of the grass area, we were able to add over 40 additional parking spots

Scope of Work

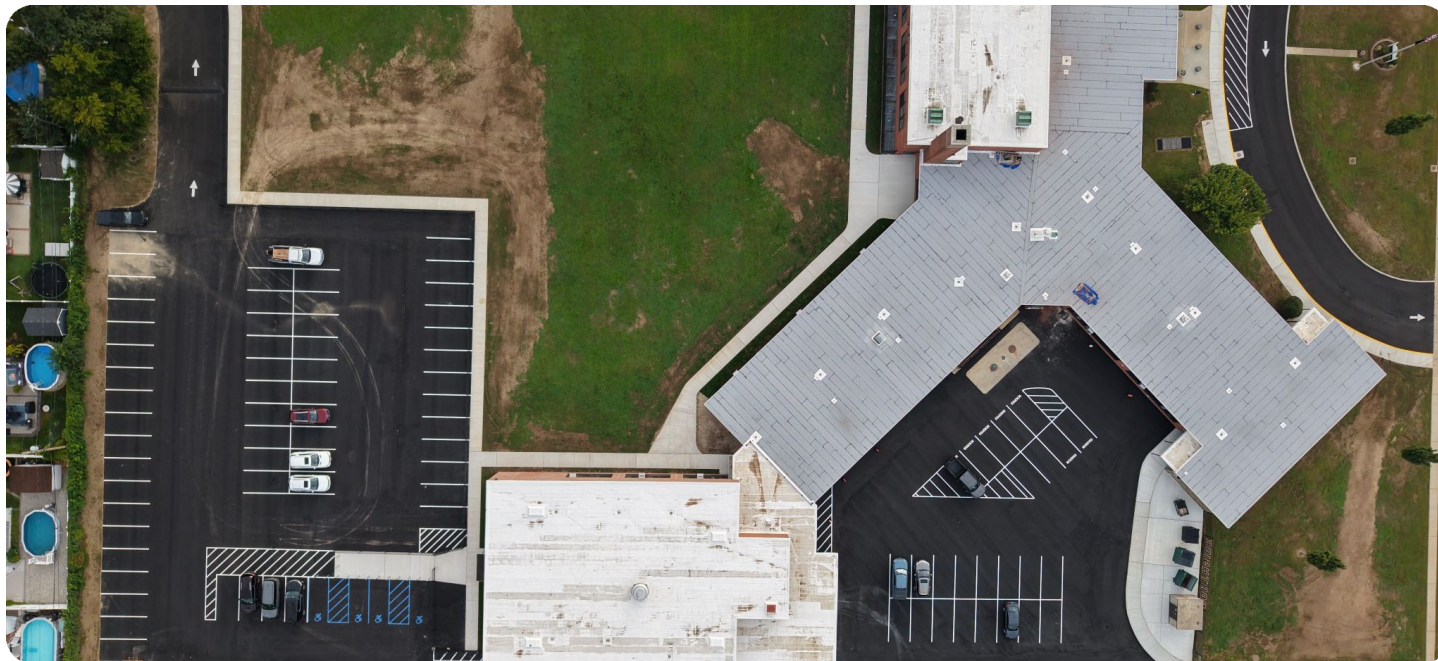

- Rear parking lot expanded to accommodate growth
- Enhanced vehicle navigation and site access
- Improved safety and daily traffic flow

Northside Elementary School: Aerial View

Completed parking lot replacement and site improvements shown from above.

Summit Lane Elementary School

Summit Lane Elementary School received new roofing, extensive masonry repairs, and renovated fifth-grade classrooms with new flooring, ceilings, lighting, window shades, paint, and furniture. The exterior recess area was completely replaced with new asphalt surfacing, sidewalks, curbing, and basketball courts.

Summit Lane Elementary School: Aerial View

Renovated recess areas, playground, basketball courts, and surrounding pavement shown from above.

Division Avenue High School

Major summer facility improvements and campus infrastructure upgrades

Exterior & Site Upgrades

- Roof replacement and comprehensive masonry repairs
- Complete replacement of student and faculty parking lots

Interior & Environmental

- Asbestos abatement of plaster ceilings and floor tiles
- Installation of new suspended ceilings and resilient flooring

Broadcasting Studio (Room 221)

- Room 221 fully renovated into a modern studio space
- Status: **Renovation Completed**

School Library Renovation

Complete demolition and renovation of library.

- Status: **Work in progress**

Division: Second-Floor Hallways

Following asbestos abatement, new suspended ceilings and resilient flooring were installed.

Asbestos Abatement

Classroom/Hallway Floor tile, plaster ceiling removals

Suspended Ceilings

New acoustic tile systems

New LVT Flooring

High-durability surface installed second floor corridors and classrooms

Division: Library Renovation

New ceilings, custom millwork, finishes, and infrastructure are reshaping the library.

Custom Millwork

Original shelving & cabinetry being fully restored

Architectural Ceilings

Decorative coffered ceiling being installed

Finishes & Infrastructure

Updated lighting & drywall

Division: Library Renovation Progress

Selective demolition and original woodwork restoration continue as the library is reconfigured.

Library Renovation Progress

Selective demolition and original woodwork restoration are advancing as the library is reconfigured. Original paneling and cabinetry are being preserved while ceiling, lighting, and infrastructure improvements prepare the space for modern instructional use.

Division: Parking Lots

Student and faculty lots received new pavement, markings, and accessible parking spaces.

New Pavement & Arrows

Fresh asphalt surfacing with clear directional markings

Faculty & Student Lots

Fully re-stripped parking spaces and driving lanes

Accessible Parking

Dedicated ADA accessible spaces with blue markings

Division Avenue High School: Aerial View

Completed student and faculty parking lot improvements shown from above.

MacArthur High School

Overview of major facility improvements and infrastructure upgrades completed this summer.

Roof & Masonry

- New roof replacement
- Extensive masonry repairs

Safety Systems

- New fire alarm installation
- Upgraded public address system

Locker Rooms

- Boys' locker room full renovation
- Girls' locker room full renovation

Shop Classroom

- Classroom renovation with new epoxy flooring, dust collection, tool and work stations
- New exterior access for materials and projects

MacArthur: Roof Replacement

Roofing was completely replaced across multiple sections, including detailed work around rooftop equipment.

Multi-Section Coverage

Roofing was comprehensively replaced across multiple facility sections.

Rooftop Equipment Work

Detailed flashing and sealing integration around rooftop HVAC equipment.

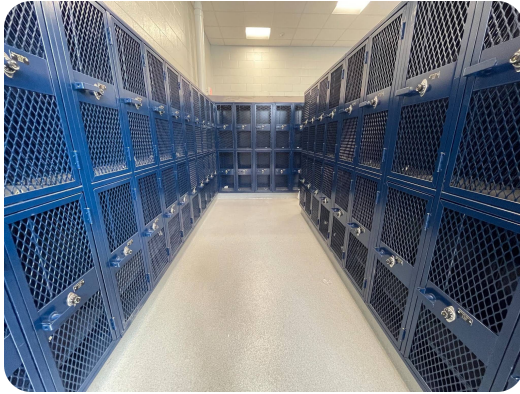

System Upgrades

New weatherproofing layer ensuring long-term protection and efficiency.

MacArthur: Locker Room Renovations

The boys' and girls' locker rooms received new finishes, fixtures, lockers, and support spaces.

Locker Room Modernization

Both the boys' and girls' locker rooms were fully renovated this summer. New lockers, upgraded finishes and fixtures, and refreshed support spaces created brighter, more durable, and more functional facilities for students and athletic programs.

MacArthur: Shop Classroom renovation

The shop classroom at MacArthur received new epoxy flooring & finishes, dust control equipment, and new shop machinery. To easily access the outside for materials & projects a set of double exterior doors was added to the school building.

Shop Classroom Modernization

The MacArthur shop classroom received new epoxy flooring and finishes, upgraded dust-control equipment, and new shop machinery. A new set of exterior double doors was also added to improve access for materials and hands-on projects.

Salk Middle School

Summary of summer facility improvements, infrastructure upgrades, and spatial renovations:

Roofing & Infrastructure

- Partial roof replacement and extensive masonry repairs
- Installation of new fire alarm and public address systems

All-Purpose Room Renovation (Little Theater)

- Existing stage and seating removed
- Upgraded with new ceiling, lighting, flooring, HVAC, and custom furniture layout

Flooring Abatement & Replacement

- Asbestos abatement of classroom and hallway floor tiles
- Replacement with durable new vinyl flooring

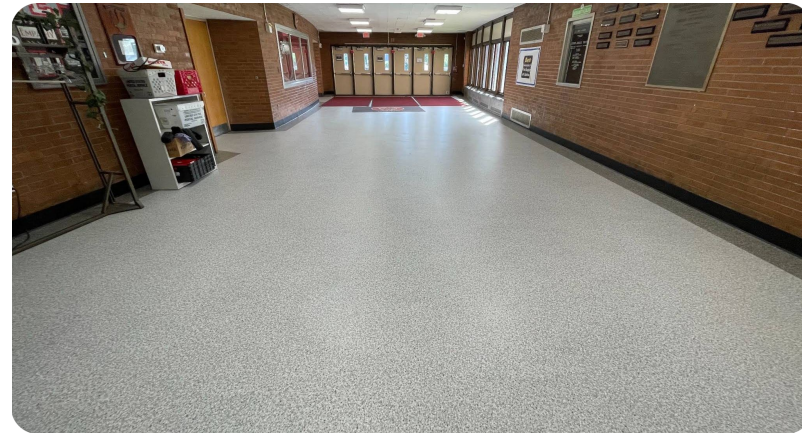

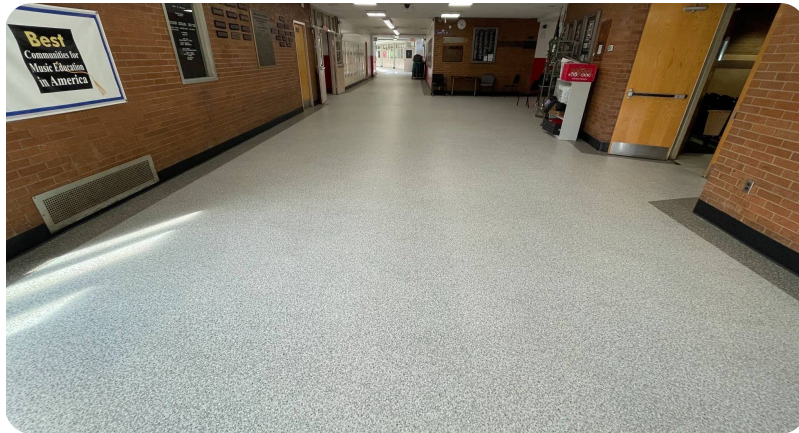

Administrative Offices & Painting

- Renovations to main office, principal's, and AP's offices with new flooring, ceilings and paint
- Ongoing painting across classrooms and hallways

Salk Middle School: Main Lobby

New vinyl flooring installed after asbestos abatement created a cleaner, more durable entrance.

Lobby Flooring Renewal

After asbestos abatement, durable commercial-grade vinyl flooring was installed throughout the main lobby. The refreshed finish creates a cleaner, brighter, and more welcoming entrance designed to withstand heavy daily use.

Salk Middle School: Hallway Flooring

Hallway and classroom floor tile was abated and replaced with durable new vinyl flooring.

Hallway Flooring Renewal

Following asbestos abatement, durable new vinyl flooring was installed throughout Salk's hallways and classrooms. The refreshed surfaces provide a cleaner, brighter, and easier-to-maintain environment for students and staff.

Salk Middle School: All-Purpose Room

The existing space was not functional for the need of the school building

Existing stage area removed

Existing Seating removed to make way for custom college style tables and seating

Interior Space received new celigns, lighting, flooring and new HVAC system.

Salk Middle School: All-Purpose Room

The renovated all-purpose room features new HVAC, custom furniture, and refreshed finishes.

New HVAC System

Upgraded climate control and ventilation installed to ensure optimal year-round environmental comfort.

Custom Furniture

Outfitted with modern, flexible college-style tables and versatile seating configurations.

Refreshed Finishes

Complete overhaul featuring new acoustic ceilings, LED lighting, durable flooring, and fresh paint.

Levittown Memorial Education Center (LMEC)

LMEC received new roofing, extensive masonry repairs, asbestos abatement of carpet & floor tile, and installation of new LVT flooring in the HR suite, Special Education suite, and payroll offices. Exterior renovations include replacement of the walking track, while installation of security lighting for the track is underway.

LMEC: Flooring Improvements

New LVT flooring was installed following asbestos abatement in the HR and Special Education suites.

Flooring Renewal

Following asbestos abatement, new LVT flooring was installed in the HR and Special Education suites. The new finish provides a cleaner, more durable, and easier-to-maintain surface for staff and students.

LMEC: Exterior improvements

The walking track at LMEC was completely replaced, restriped, and security lighting added. Lighting is still underway, we expect it to be completed within a month. Additionally, lacrosse netting has been added to make the space more accommodating to our athletic programs.

Whats Next?

The B&G team is already looking forward to the summer of 2027 and preparing for upcoming capital improvements.

HS Athletic Fields

Turf & Site Upgrades

Preparation is underway for brand new athletic turf fields, exterior bathrooms, and comprehensive site improvements at our high school fields.

Wisdom Lane MS

Parking & Classrooms

Planned parking lot replacement along with complete renovations to FACS classrooms.

Salk MS

FACS & Future Projects

Renovated FACS classrooms at Salk MS, finishing ongoing improvements.

Buildings & Grounds Team

Special thanks to the entire B&G team for their tireless efforts this summer. Without them, none of this would be possible!

Administration, BOE & Community

Thank you to the Levittown central administration, BOE, and community for supporting these vital school upgrades.
