Guidance and Counseling Departments

The Guidance and Counseling Departments exist to provide assistance to all students in their pursuit of educational and career goals. In particular, counselors seek to help students develop an understanding of their abilities and interests and learn the skills necessary for responsible decision-making. In all areas they strive to maintain the focus of the school as well as address the needs of the individual student.

Every year each counselor schedules an individual conference among students, parents, and counselor to review academic achievement, discuss mutual concerns, and plan for the future. Counselors often assist teachers in assessing the needs and abilities of their students. College catalogs, computer databases that provide extensive information on colleges, financial education and careers, scholarship information are among the resources available in the Guidance Office. The Guidance and Counseling Department encourages all members of the school community to utilize its services.

Introduction

We are proud to provide you with our Course Description Guide. It is meant to assist students and parents in selecting specific courses and in planning a total high school program.

The decision to choose a course should be based on as much information as possible, and this guide is just the beginning. You should obtain input from your teachers and school counselors who will be instrumental in advising you of appropriate course content and difficulty. You should also become familiar with the requirements you need to fulfill in order to obtain a diploma at the end of your high school career.

This catalog not only contains courses that are required for graduation, but also courses that may help you decide on a course of study in college, or a path toward the world of work. We urge you to take an opportunity to explore all the different electives available to you.

Of course, there are times when you may wish to take a course that is unavailable to you, because it does not fit into your schedule, it is overenrolled or there is insufficient enrollment. If this occurs, students will be provided with an opportunity to select an alternate course. Where electives are subject to availability, preference will be given to upperclassmen.

Portrait of a Graduate

Advanced Placement Courses

Students who are planning to enroll in Advanced Placement courses for the school year should plan to take the AP exam. Students who do not take the AP exam will have their transcripts reflect their enrollment in an honors or Regents level of the course, not the Advanced Placement level. Students may begin taking AP courses in tenth grade. AP courses are listed by subject area at the beginning of each section. You may also click on the course to go directly to its description.

All Course Offerings

Art

Art Department

Mr. Frank Creter, Director

GRADUATION REQUIREMENT: To earn a NYS Regents diploma, a student must successfully complete at least one credit in visual arts and/or music, dance, or theatre.

7375 | AP STUDIO IN ART

1 Credit, Grade 12

Prerequisite: Teacher Recommendation

The curriculum of AP Studio in Art will emulate that of the typical first year college foundation course. Focus will be placed on the portfolio requirements set by The College Board. The driving force in this course will be a body of work that focuses on an area of sustained investigation tailored for each individual student. Students that elect to apply for AP credits will submit their portfolios in May. Transcripts of students who do not take the AP Examination in Studio Art will show that the student took an accelerated level of the course, not an AP course.

7345 | ART PORTFOLIO

1 Credit, Grades 11 ~ 12

Students will have the opportunity to further expand their creativity, technical ability, and visual sensitivity through the completion of a series of major projects using various media. Students will consult with their classroom teacher to discuss areas of focus and development specific to them. Students are to investigate art movements and develop a deeper understanding of the meaning behind works of art. Work produced in this course will be developed into a digital portfolio. Students will learn the importance of photographing

and digitally formatting images to help prepare a portfolio for Advanced Placement courses or college entrance.

7410 | CERAMICS I

1 Credit, Grades 9 ~ 12

This course offers an exploration of the properties of clay related to pottery and ceramics. Students will learn various hand building techniques. Surface decoration is explored.

7411 | CERAMICS II

1 Credit, Grades 10 ~ 12

Prerequisite: Ceramics I

Students will build upon the basic skills learned and will be challenged to broaden the scope of their individual work-style. They will gain insight into the fine art of ceramics while honing their handbuilding, modeling, and wheel throwing techniques. Through the experimentation of traditional and non-traditional media, students will create functional as well as fine art ceramic pieces.

7508 | DIGITAL PHOTOGRAPHY

1 Credit, Grades 10 ~ 12

Prerequisite: Photography I

Using the digital camera, students will expand their photo knowledge to create professional level work. While this course will build on the techniques learned in basic photography, studio and graphic design, the students will work at a more advanced level. They will explore the world of advertising, fashion, studio lighting and fine art photography.

7400 | DRAWING AND PAINTING I

1 Credit, Grades 10 ~ 12

Prerequisites: Studio in Art or Studio in Media

Though painting will be introduced, this course will emphasize various drawing techniques and materials. Emphasis on drawing from observation will be placed throughout the year. Students will be encouraged to explore, investigate, and produce works of art from nature, still life, art history and imagination. Materials will include a pencil, charcoal, pen-and-ink, and wash, among others. Students interested in honing their drawing skills and artistic talent should consider this course.

7401 | DRAWING AND PAINTING II

1 Credit, Grades 10 ~ 12

Prerequisites: Drawing and Painting I

Though drawing will be reinforced, this course will emphasize various painting techniques and media. Students will be encouraged to explore, investigate, and produce works of art from nature, still life, art history and imagination. Media will include watercolors, acrylic and oil paints, glazes, ink and

more. The exploration of color and its organizing principles will be taught. Students will be challenged to broaden the scope of their work to create original works of art.

7514A | FASHION ILLUSTRATION

(Alternate Days)

.5 Credit, Grades 9 ~ 12

Students will learn to draw the fashion face and figure, explore drawing, painting, techniques to design clothing for men, women, and children. Students will study clothing and will develop their own personal style and fashion statement through their own work.

7450 | GRAPHIC DESIGN I

LIU Post (CGPH 7)

Full Year, 1 Credit, Grades 10 ~ 12

Prerequisite: Studio in Art or Studio in Media

Graphic Design provides higher-level skills and knowledge for students who wish to pursue a career in art and design. Building on beginning skills learned in introductory art courses, students master design elements and use traditional and computer technology. Students will be knowledgeable about the historical and current developments of graphic communication. Understanding the diverse roles and processes in the industry, students will work independently and in teams to create. Students will utilize problem-solving and interpersonal skills in the development of their artwork from thumbnail sketches to comprehensive layouts.

7451 GRAPHIC DESIGN II

LIU Post (CGPH 8)

Full Year, 1 Credit, Grades 11 ~ 12

Prerequisite: Graphic Design I

Graphic Design II builds on elementary skills and techniques learned in Graphic Design I. Students will learn advanced applications like masking and 3D design. Students will become proficient in Adobe Illustrator and Photoshop. These programs will be used simultaneously for final production to maximize professional output. Students will work individually and as part of a creative team to simulate the roles of professionals in the industry.

7500 PHOTOGRAPHY I

1 Credit, Grades 9 ~ 12

This is a foundation course in photography covering both analogue and digital photography. For the first semester students will explore the fundamentals and techniques of black and white photography and the proper use of darkroom techniques associated with processing film and enlarging photographs. For the second semester, students will be introduced to digital photography and Adobe Photoshop to complete future assignments. Film cameras are provided.

7501 PHOTOGRAPHY II

1 Credit, Grades 10 ~ 12

Prerequisite: Photography I

Photography II is a digital, project-oriented course that builds upon the knowledge and skills gained in Photography I. New components of lighting, color, composition, and design will be applied to such fields as: portraiture, fashion photography, still life production and alternative photography. Projects will be completed digitally continuing the exploration of the digital camera and Adobe Photoshop. Digital cameras will be provided.

7502 PHOTOGRAPHY III

1 Credit, Grades 11 ~ 12

Prerequisite: Teacher Recommendation

This course offers art students the opportunity to further expand their technical ability, creativity, and visual sensitivity through the completion of a series of projects. These projects are decided upon by the student with teacher guidance. Students may choose to work with traditional photographic methods and/or alternative processes, including digital cameras and computer enhancement software. Student work should reflect their understanding of specific photographers or styles of photography. The photographs produced in this course will help fill a portfolio for college entrance.

7300 | STUDIO IN ART

1 Credit, Grades 9 ~ 12

7300AA | STUDIO IN ART A

(Alternate Days)

7300BA | STUDIO IN ART B

(Alternate Days)

.5 Credit, Grades 9 ~ 12

Note: Satisfies NYS Art requirement

This course is an introduction to the fundamentals of drawing, painting, sculpture, and art history. Students will learn the elements and principles of design while exploring different media, various techniques, and the influence of art history. At the completion of this course students will have developed a strong foundation in art should they desire to enroll in additional art courses.

7307A | STUDIO IN CRAFTS

(Alternate Days)

.5 Credit, Grades 9 ~ 12

This foundation course is recommended for students with an interest in three-dimensional design. Though 2D design may be incorporated, students will design craft art forms using materials such as wood, plaster, wax, wire, and clay. Students will explore cultural and historical art influences and its impact within their own work. This course is an excellent pre-requisite for other 3D classes- Ceramics, Ceramics II, and Sculpture.

7312 | STUDIO IN MEDIA

1 Credit, Grades 9 ~ 12

Note: Satisfies NYS Art requirement

This is a digital media visual arts foundation course. Students will learn about the elements of art and principles of design through a foundation of different media: graphic design, darkroom and digital photography, animation, and video.

7315 | STUDIO IN SCULPTURE

1 Credit, Grades 10 ~ 12

Prerequisite: Studio in Art

Through experimentation with traditional and non-traditional media, sculpture students will create sculptures using additive, subtractive, and modeling techniques. Students will use their knowledge of basic 3-dimensional form and building techniques to expand upon their individual style and broaden the scope of their work. Projects will encompass 2-D as well as 3-D applications.

Business

Business Department

Mr. John Towers, Director

GRADUATION REQUIREMENT: Students in grades 10-12 must take a .5 credit course in financial literacy prior to graduation.

5310a | APP INVENTOR

(Alternate Days)

.5 Credit, Grades 9 ~ 12

Never coded but want to learn how to build apps? Then you've come to the right place. This course starts at the very beginning and then will walk you through building progressively more complex apps. You'll learn how to build many types of apps and you'll learn programming concepts and terminology.

5300 | COMPUTER PROGRAMMING I

1 Credit, Grades 9 ~ 12

Students are introduced to computer programming, logic and techniques using simple programming languages, such as XOJO and Python. Emphasis is placed on developing skills in problem analysis by means of computer programming. Using mathematical computation and technological knowledge, students will explore ways to design and create applications through activities and projects.

5312a | COMPUTER APPLICATIONS

(Alternate Days)

.5 Credit, Grades 9 ~ 12

The objective of this course is to provide students with computer skills that will be useful in high school, college, and throughout their lives. Students will be provided with a hands-on opportunity, utilizing desktop computers and tablets, to explore some of the modern computer software productivity tools used in the business world through Microsoft Office. Students become familiar with the manipulation of data using Word, PowerPoint, and Excel. Additionally, students will learn effective Internet search strategies and how to evaluate the veracity and authenticity of web content.

5314a | DESKTOP PUBLISHING

(Alternate Days)

.5 Credit, Grades 9 ~ 12

This course is designed for students as an introduction to state-of-the-art, professional-level computer applications used in the publication field. Students will gain marketable skills by learning Adobe Illustrator, Photoshop, and InDesign to create top-quality printed materials such as playbills, brochures, newsletters and advertisements. Students

will learn how to create and import graphics, scan images, manipulate fonts and use special graphic effects to produce professional business documents.

5320 | DIGITAL MEDIA PRODUCTION 1

1 Credit, Grades 10 ~ 12

In this course students will learn how to edit digital video, add music and sound effects, text, and transitions. Students will use industry software including Adobe Premiere and Adobe Creative Suite. The latest technology will be used to compile professional quality videos. Projects will include documentaries, highlight films, music videos, conversion videos and school projects.

5321 | DIGITAL MEDIA PRODUCTION 2

1 Credit, Grades 11 ~ 12

Prerequisite: Digital Media 1

Digital Media Productions 2 is offered to all juniors and seniors interested in continuing their exploration in the field of video editing and media production. Students will have the opportunity to enhance their editing skills through a variety of video projects and assignments. This course is perfect for those students who want a hands-on experience in the world of digital editing and movie making.

5400a | FINANCIAL LITERACY & READINESS

(Alternate Days)

.5 Credit, Grades 10 ~ 12

The Financial Literacy and Readiness course is designed to alert, inform, and educate students in concepts of personal finance and money management. Students will begin to develop the skills and strategies that promote personal and financial responsibility related to financial planning, savings, investment, and charitable giving in the global economy. The structure of this class will reflect real-world situations as closely as possible.

5317A | LEVEL UP: INTRO TO VIDEO GAME DESIGN

(Alternate Days)

Full Year, .5 Credit, Grades 9 ~ 12

In this hands-on course, students will explore how video games are made, played, and sold. They'll get to play and analyze popular games to learn what makes them exciting and successful. Through hands-on projects, students will explore game design basics like storyboarding, building characters and levels, and designing fun game play experiences. No coding is required! They'll also learn how game companies use branding, budgets, and marketing to reach players. Working in teams, students will design and create their own original game concepts. At the end, students will have game concepts to show off and a better understanding of how games are made and what it takes to work in the video game industry.

5407 | SPORTS AND ENTERTAINMENT MARKETING

1 Credit, Grades 10 ~ 12

This course is designed to introduce students to the concepts of marketing by relating them specifically to the exciting and fast-paced worlds of business, sports, and entertainment. Marketing principles will be studied and applied to the advertising, promotion, publicity, and market research of sporting events. Students will learn about the marketing of products related to sports, including clothing, equipment, automobiles, food products, movies and television programming. This course will be enriched with a field trip to a local sports arena or stadium.

5323 | TELEVISION AND VIDEO BROADCASTING

1 Credit, Grades 11 ~ 12

If you ever wanted to work in the Film or Television industry – this course is for you. This exciting course prepares students for positions in front of the camera, as well as in behind-the-scenes production. Students learn on professional equipment in MacArthur’s Broadcast Studio. They also gain experience with industry-standard video editing software. Students work in collaborative teams to produce projects using cameras, while learning the basics of studio and field production, lighting and sound. Projects include different types of feature stories, including Human Interest; Entertainment; News; Arts and Sports.

5500 | TRIAL LAW

1 Credit, Grades 10 ~ 12

This course is designed for students to investigate the foundations of our trial

system. Throughout the year, students will research our court system and perform mock trials for hands-on-experience. The mock trial preparation will provide an introduction to the major components of a trial: opening statements, direct and cross examinations and closing arguments. This course of study will develop his or her public speaking skills, gain poise and confidence, and become familiar with the operation of our court system.

5501 | TRIAL LAW 2: CRIMINAL LAW

1 Credit, Grades 11 ~ 12

Prerequisite: Trial Law 1

This course is designed for students with an interest in law and its related careers. The criminal justice system is based upon an organization of laws and a system of rights. This class considers the definitions and development of criminal law, criminal procedure and criminal rights. Students examine and analyze criminal law, expanding their understanding of mock trial procedures utilized in courtroom simulations.

5530 | WEB DESIGN I

1 Credit, Grades 9 ~ 12

Students will learn to explore the Internet and obtain information for reports, projects, and personal use. Students will develop website pages using the basics of Hypertext Markup Language (HTML), the language of the World Wide Web. Students will also explore DreamWeaver software to create web pages that integrate word processing, graphics, and photographs as well as other layout techniques.

5406A | ENTREPRENEURIAL EXPERIENCE

.5 Credit, Grades 11 ~ 12

This full-year course offers a real entrepreneurship experience where students have the opportunity to create and fully develop their own product or service and learn how to build a business. This course also includes foundational business topics such as marketing, human resources, business law, and finance.

5378 | AP COMPUTER SCIENCE A

1 Credit, Grades 11 ~ 12

Prerequisite: Instructor Approval Required

This course is equivalent to a first semester college-level Computer Science course. Problem solving and algorithm design will be emphasized. Basic computer programming concepts of input, output, conditionals, looping, functions, sorting, searching, advanced data structures and object-oriented programming with classes will be covered. The programming language used will be Java. College credit may be received for grades of three or higher on the Advanced Placement examination taken in May. All students enrolled in this class are expected to take the College Board AP exam. Transcripts of students who do not take the AP Examination in Computer Science-A will show that the student took an accelerated level of the course, not an AP course.

5375 | AP COMPUTER SCIENCE PRINCIPLES

1 Credit, Grades 11 ~ 12

Prerequisite: Instructor Approval Required

This course introduces students to the foundational concepts of computer science and challenges them to explore how computing and technology can impact the world. With a unique focus on creative problem solving and real-world applications, AP Computer Science Principles prepares students for college and career. College credit may be received for grades of three or higher on the Advanced Placement examination taken in May. All students enrolled in this class are expected to take the College Board AP exam. Transcripts of students who do not take the AP Examination in Computer Science Principles will show that the student took an accelerated level of the course, not an AP course.

5450 | COLLEGE BUSINESS OWNERSHIP AND MARKETING

LIU Post (MKTG 211/ENT 201)

Full Year, 1 HS Credit & 6 LIU Post Credits

Grades 10 ~ 12

Note: Available credits vary based on college.

This course will allow future entrepreneurs to learn about various forms of business organizations and how they enter domestic and global markets. All phases of business are discussed to prepare students to design a business plan. Students will see this business plan through from inception to implementation as they build their company through virtual business software.

5453 COLLEGE INTRODUCTION TO BUSINESS

LIU Post (MAN 211/MAN 214)

Full Year, 1 HS Credit & 6 LIU Post Credits

Grades 11 ~ 12

This college-level course examines the role of business in American Society and the interrelationships between business, government, labor, and society at large. General areas of study center on the foundation of business, management, marketing activities, finance and financial services. Students will analyze and relate theory to current events.

5351 COLLEGE WEB DESIGN II

LIU Post (CGPH 222/CGPH 224)

Full Year, 1 HS Credit & 6 LIU Post Credits

Grades 10 ~ 12

Prerequisite: Web Design I

This college level course will allow students who completed Web Design I to expand and develop career skills in this growing field. This is a hands-on, project-based course that involves students in the development and design of multiple websites. Students will explore and master advanced features in web design software such as Adobe DreamWeaver and Adobe Flash to address the latest web development practices.

5404A BUSINESS EXPLORATION

.5 Credit, Grades 9 ~ 12

This course is for any student interested in exploring the field of business, this is the place to start! Students will develop a foundation in business concepts and transferable skills that will prepare them for other high school business courses and ultimately for post-secondary education and career opportunities. This course will give students the opportunity to examine business basics, such as marketing and social media, financial foundations, such as accounting and investing, and career connections, such as entrepreneurship and tourism.

5555 COLLEGE REAL ESTATE

LIU Post (FIN 325)

Full Year, 1 HS Credit & 3 LIU Post Credits

Grades 11 ~ 12

This course is for upperclassmen who are interested in the exciting world of real estate. It will provide an introduction to the real estate profession that students will find useful as future buyers/sellers or provide insights into a possible career opportunity. This course will focus on the business of real estate with a particular focus on residential and commercial property in the New York metropolitan and Long Island areas. Topics covered will include real estate instruments, real estate brokerage, real estate financing, appraisals, and valuations. Upon completion of this course, successful students will receive a certificate qualifying them to sit for the NYS Real Estate Salespersons Licensing Examination once they turn 18 years of age.

CTE

Career and Technical Education

Nassau BOCES/Gerald R. Claps Career and Technical Center (GC Tech)

BOCES GC TECH/BARRY TECH

Credit Varies

Open to Grades 11 ~ 12

Students interested in attending career and technical programs at BOCES GC Tech or BOCES Barry Tech for areas not offered at the high schools must express interest to their school counselor. A separate application may also be required. These courses include Automotive Technology, Cosmetology, Medical Assisting, Police Science, Culinary Arts and more. For additional information please [click here for the BOCES course catalog](#).

BOCES LIHSA

Credit Varies

Open to Grades 11 ~ 12

Students interested in attending BOCES the Long Island High School for the Arts for areas not offered at their high school must express interest to their school counselor and complete an online application, which can be found on the MacArthur/DAHS guidance website, by February of their sophomore or junior year. Requests received after this date will be denied. Applications will only be approved for programs not currently offered in the district. Not all students will be permitted to attend. All decisions related to attendance at LIHSA will be made by the Department of Curriculum and Instruction. Students will be notified of these placement decisions in writing no later than April 1st. The course catalog for LIHSA can be found here: <https://www.longislandhighschoolforthearts.org/about/faqs/additional-resources/>

English

English Department

Dr. Kerin Slattery, Director

GRADUATION REQUIREMENT: In order to earn a NYS Regents diploma, students must successfully pass the English Regents examination and complete four credits in English as follows: English 9, English 10, English 11, and a choice of English 12 courses.

1120 ENGLISH 9 ELA Essentials

1 Credit, Grade 9

Students enrolled in this course are provided with a comprehensive program designed to impart the elements of paragraph organization as well as clarity of expression. The literature portion of the course includes a study of the novel, short story, lyric and narrative poetry, and works of nonfiction. Vocabulary skills are developed in conjunction with composition and literature. District-wide midterm and final examinations have been developed for this course. English 9 ELA Essentials is the same as English 9R, except that additional support will be provided to reinforce the skills necessary to prepare for the Regents examination in grade 11. If this additional support is necessary, students' Middle School Teacher/Guidance Counselor will recommend them for this program.

emphasis on writing, the use of more challenging texts, and the focus on developing more advanced critical thinking skills distinguish this course from 9R.

1100 ENGLISH 9 R

1 Credit, Grade 9

Students enrolled in this course are provided with a comprehensive program designed to impart the elements of essay organization as well as clarity of expression. The literature portion of the course includes a study of the novel, short story, lyric and narrative poetry, and works of fiction and nonfiction. Vocabulary skills are developed in conjunction with composition and literature. In addition, listening skills are addressed. District-wide midterm and final examinations have been developed for this course.

1110 ENGLISH 9 HONORS

1 Credit, Grade 9

This course is designed to cover all content and skill areas of 9R with a heavier emphasis on critical thinking, careful reading and fluency of language. It utilizes supplemental materials designed to challenge students to recognize authors' techniques, and to develop an appreciation for said techniques. The

1275 ENGLISH 10

AP Capstone Seminar

1 Credit, Grade 10

Prerequisites: English 9, completion of summer assignment

This course is an innovative diploma program from the College Board that equips students with the independent research, collaborative teamwork, and communication skills that are increasingly valued by colleges. In AP Seminar, students investigate real-world issues from multiple perspectives, gathering and analyzing information from various sources in order to develop credible and valid evidence-based arguments. This program aims to empower students by providing opportunities for them to practice disciplined and scholarly research skills while exploring relevant topics that appeal to their interests and curiosity. This course is a prerequisite for AP Research that will be offered in the 11th or 12th grade year. Transcripts of students who do not take the AP Capstone examination at the conclusion of this course will show that the student took an accelerated level of this course, not an AP course.

1220 ENGLISH 10 ELA Essentials

1 Credit, Grade 10

Students enrolled in this course are provided with a comprehensive program designed to impart the elements of essay organization as well as clarity of expression. The literature portion of the course includes a study of the novel, short story, lyric and narrative poetry, and works of nonfiction. Vocabulary skills are developed in conjunction with composition and literature. District-wide midterm and final examinations have been developed for this

course. English 10 ELA Essentials is the same as English 10R, except that additional support will be provided to reinforce the skills necessary to prepare for the Regents examination in grade 11. If this additional support is necessary, the students' Teacher/Guidance Counselor will recommend them for this program.

1230 ENGLISH 10

Pre-Advanced Placement

1 Credit, Grade 10

Prerequisites: English 9, completion of summer assignment

This course is designed to place students in an Advanced Placement track for 11th and 12th grades. The class will cover all content and skill areas of 10R with a heavier emphasis on critical thinking, careful reading and fluency of language. It utilizes supplemental materials designed to challenge students to recognize authors' techniques, and to develop an appreciation for said techniques. The emphasis on writing, the use of more challenging texts, and the focus on developing more advanced critical thinking skills distinguish this course from 10R.

1200 ENGLISH 10 R

1 Credit, Grade 10

The composition portion of this course emphasizes the construction of clear and concise essays, themes, letters, and reports. Vocabulary development, sentence structure, usage, and listening skills are essential aspects of this course, as are effective oral communication and public speaking. Literature study includes the

characteristics of various genres: short story, novel, essay, drama, lyric and narrative poetry. District-wide midterm and final examinations have been developed for this course.

**1375 | AP ENGLISH –
LANGUAGE/COMPOSITION**

(Molloy University – 3 Credits)

(ENG 1100)

1 Credit, Grade 11

Prerequisites: English 10 Pre-AP, Advanced Placement Capstone Seminar, English 10 R, and completion of summer assignment

The AP Language and Composition course involves an intense concentration on language use and literature study and will enhance the ability to use grammatical conventions both appropriately and with sophistication. Stylistic writing is fostered by studying and developing the following: a wide range of vocabulary used appropriately and effectively, a variety of sentence structures and techniques to increase coherence, constructive critiques of peers' writing, prewriting strategies and critical reading of fiction and non-fiction literature. Students will be prepared for and take the Advanced Placement Language and Composition Examination and the Regents Examination if necessary. Transcripts of students who do not take the AP Examination in Language/Composition will show that the student took an accelerated level of this course, not an AP course. This course fulfills the English III requirement.

1320 | ENGLISH 11 ELA Essentials

1 Credit, Grade 11

The composition portion of this course emphasizes the skills of mature written expression through extensive study of sentence and paragraph structure, essay development, and theme organization. Maturity of thought, sound organization, economy of words, and variety of expression are taught and practiced, particularly in expository and critical writing assignments. Vocabulary study is regular and extensive. The literature program is a study of American prose, poetry, and drama from colonial times to the present, with emphasis on the understanding and appreciation of literary types, themes, and style. English 11 ELA Essentials is the same as English 11R, except that additional support will be provided to reinforce the skills necessary to prepare for the New York State Regents examination given in June.

1300 | ENGLISH 11 R

1 Credit, Grade 11

The composition portion of this course emphasizes the skills of mature written expression through extensive study of sentence and paragraph structure, essay development, and theme organization. Maturity of thought, sound organization, economy of words, and variety of expression are taught and practiced, particularly in expository and critical writing assignments. Vocabulary study is regular and extensive. The literature program is a study of American prose, poetry, and drama from colonial times to the present, with emphasis on the

understanding and appreciation of literary types, themes, and style, as well as the historical context in which the selections were written. The New York State Regents examination will be given in June.

**1475 | AP ENGLISH –
LITERATURE/COMPOSITION**

1 Credit, Grade 12

Prerequisites: AP English - Language and Composition, English 11R, and completion of summer assignment

This course is open to 12th grade students with proven ability in reading and writing skills. The course involves students in both the study of literature and the study and practice of writing. By carefully reading and analyzing a wide range of quality literary works, students will sharpen their awareness of language and their understanding of the writer's craft. Students will develop critical standards for the independent appreciation of any literary work and increase their sensitivity to literature as a shared experience. Writing assignments will focus on critical analysis of literature. The desired goals of the writing aspect of the course are honest and effective use of language and the ability to organize ideas in a clear, coherent and persuasive way. Transcripts of students who do not take the AP Examination in Literature/Composition will show that the student took an accelerated level of this course, not an AP course. This course fulfills the English 12 requirement.

**1400W | ENGLISH 12 – THE
COLLEGE WRITER**

1 Credit, Grade 12

Prerequisites: 11th Grade English and completion of summer assignment

The goal of this course is to provide superior composition instruction that exceeds the minimal standards set by the State and prepare students for the writing demands of the most selective colleges. In the College Prep Writing portion of this full year course, students practice genres of writing such as exposition, argument, description and narration. Students will learn effective prewriting and revision strategies and employ an increasingly apt vocabulary to write insightfully to a variety of audiences for a variety of purposes, including the college essay for college application. The second half of this course will allow students to explore the format of various works of fiction and nonfiction, including short stories, poetry, dramatic dialogue, screen plays, etc. Close analysis of each work will culminate in students writing original works in various genres to be included in a digital portfolio of their own written work.

1400L | ENGLISH 12 – LITERATURE

1 Credit, Grade 12

Prerequisites: 11th Grade English and completion of summer assignment

This full year course will begin with the exploration of the portrayal of monsters based on the work of David Gilmore, from the earliest appearance of story monsters to contemporary monsters of today. Students will then compare the various hero/heroic

archetypes based on Joseph Campbell's theory of the hero's journey across diverse literary genres. Students will track the evolution of the monster and the hero and explore ways in which they both have evolved over time through literature. Students will read, write and analyze various monsters and heroes in an attempt to understand why all cultures need and love monsters and heroes.

1920 | ENGLISH - THE GRAPHIC NOVEL

.5 Credit, Grades 10 ~ 12

Graphic novels are a combination of art and literature merging to form an enthralling new media. This course will explore universal themes portrayed in the graphic novel by examining texts for meaning conveyed through both language as well as art. Some works will be examined side-by-side in order to illustrate and examine, compare and contrast the original work with its graphic counterpart. Students will collaborate to create their own graphic novels throughout the duration of this half year course.

1802 | ENGLISH - BRANDING YOURSELF FOR SUCCESS

(Communications)

.5 Credit, Grades 10 ~ 12

Whether you're heading to college or jumping into the workforce, this English elective will give you the skills you need to succeed. You'll learn how to craft standout resumes, write professional emails and business letters, ace job interviews, build a polished digital portfolio, deliver confident presentations, and navigate AI and social media responsibly. This course is all about preparing you for real-world success!

1930 | ENGLISH - FILM & TELEVISION STUDIES

.5 Credit, Grades 10 ~ 12

The goal of this elective is to establish a strong set of adaptable English skills for future employment and advancement in our digital world. Lights, camera, action! From drama to comedy, analyze and emulate your favorite movies and television shows, focusing on the creator's intent. Students will go through the process of creating their own screenplays, incorporating original characters and using a variety of digital media to create digital shorts, trailers, and movie scenes. They will have the opportunity to experiment with a variety of genres and writing styles running the gamut from the satiric to the dramatic. Through this course students will develop a sophisticated understanding of the history of film, how it has evolved, and its influence on society.

Family & Consumer Sciences

Family & Consumer Sciences Department

Mr. Patrick Burke, Director

795a | CHILD DEVELOPMENT I

(Alternate Days)

LIU Post (Child Development & PSY 120)

.5 Credit & 3 Credits LIU Post

Grades 9 ~ 12

This course provides students with a knowledge base and practical experience in child development from the prenatal period through preschool for application to his or her present role as a family member, as a future parent, and/or in a career. Students will learn through the engagement of project-based assignments. Major units of study include children and parenting, prenatal development, infant growth and development, toddler and preschool development, and careers in childcare. Students enrolled in this course will have the option of receiving dual credit from the high school and a local college.

789 | CULINARY ARTS

1 Credit, Grades 9 ~ 12

This comprehensive course in food and nutrition is designed to provide students with the skills and techniques necessary for the preparation of a variety of foods. Course content includes nutrition awareness, meal management, preparation of foods, and career exploration.

790 | FASHION DESIGN

(Semester Course)

.5 Credit, Grades 9 ~ 12

Note: This class alternates with Interior Design. Successful completion of both Fashion Design and Interior Design will satisfy the minimum art requirement for graduation

This course is an introduction to fashion and clothing construction skills. Students will sew their own garments, evaluate the quality of ready to wear clothing and explore fashion design principles. Clothing care, textiles, consumerism and careers will be integral parts of the course.

784a | FOOD INVESTIGATIONS

(Alternate Days)

.5 Credit, Grades 9 ~ 12

Students will cook, bake, experiment and taste a variety of foods. Using scientific methods students will solve problems by conducting food experiments to describe chemical reactions that occur during the cooking/baking process. Why does popcorn pop? What is a food scientist? Is this a real profession? Take this interactive class and find out the answers to these questions and more!

785 | INTERIOR DESIGN

(Semester Course)

.5 Credit, Grades 9 ~ 12

Note: This class alternates with Fashion Design. Successful completion of both Interior Design and Fashion Design will satisfy the minimum art requirement for graduation

Through hands-on experience, students will learn elements and principles of design as they relate to architecture and interior decorating. Students will learn the essential components of interior design and create a final plan for an interior space. The course will highlight decorating trends, lifestyles, types of dwellings, units of color, furniture styles, and career exploration.

786 | INTERNATIONAL CUISINE

1 Credit, Grades 9 ~ 12

Students will learn about the cultures and cuisine of different regions of the world. Students will work in lab groups to create and sample cuisines from these regions. For those students who may be interested in pursuing a culinary career, this course would provide a foundation in knife skills, food preparation, and presentation. Visits from culinary professionals and college presenters will be part of the course.

8704A | FUTURE TEACHERS

.5 Credit, Grades 11 ~ 12

This course provides an introduction to teaching as a profession. This course will cover such topics as educational requirements, lesson development, teaching strategies, perspectives on education including historical, philosophical, social, and ethical issues in a diverse society. Each student will participate in on-site

experiences at a Levittown elementary/middle school. Students will collaborate to plan projects and lesson plans for the classroom.

Math

Mathematics Department

Mr. John Towers, Director

GRADUATION REQUIREMENT: To earn a NYS Regents diploma, a student must successfully complete three credits in Mathematics AND pass the Algebra I Regents exam. In order to earn a NYS Regents diploma with Advanced Designation, a student must successfully complete three credits in Mathematics AND satisfy one of the three requirements for a Regents Diploma and Advanced Designation.

4100 ALGEBRA I

1 Credit, Grade 9 ~ 12

Prerequisite: Mathematics 8

Algebra I provides tools and ways of thinking that are necessary for solving problems in many disciplines, such as science, business, social sciences, fine arts and technology. This course will assist students in developing skills and processes to be applied using various techniques to successfully solve problems in a variety of settings. Students will take the New York State Algebra I Regents examination in June.

4300 ALGEBRA II

1 Credit, Grades 11 ~ 12

Prerequisites: Algebra I and Geometry, plus both Regents exams

Algebra II is the third course in mathematics sequence, following Algebra and Geometry. In this course students will explore a wide variety of topics including polynomial, rational and radical relationships as well as functions, trigonometry and data analysis. Students will take the New York State Algebra II Regents exam in June.

4310 ALGEBRA II ACCELERATED

1 Credit, Grade 10

Prerequisites: Algebra I Accelerated and Geometry Accelerated, plus both Regents exams

This course maintains the high level of course work expected in the accelerated pathway. It is the third course in the mathematics sequence, following Algebra I Accelerated and Geometry Accelerated. In this course students will explore a wide variety of topics including polynomial, rational and radical relationships as well as functions, trigonometry and data analysis. Students will take the New York State Algebra II Regents exam in June.

4303 ADVANCED ALGEBRA

.5 Credit, Grades 11 ~ 12

Note: Fall Semester Only

This course is intended for students needing an enhanced foundation in Algebra in preparation for potential math coursework taken in college. Topics include algebraic functions and their graphs, rational expressions, exponential and logarithmic functions and their graphs, and solving various types of equations and inequalities.

4304 TRIGONOMETRY

.5 Credit, Grades 11 ~ 12

Note: Spring Semester Only

This course is intended for students needing an enhanced foundation in Trigonometry in preparation for potential math coursework taken in college. Topics include the unit circle, trigonometric functions and their graphs, trigonometric identities and equations, and trigonometric applications.

4600 ALGEBRA FOR COLLEGE 1

Fall Semester Only

.5 Credits, Grade 12

Prerequisites: Completion of two mathematics courses, including Algebra I

This course is designed to prepare students for the study of college level mathematics and to provide students with the skills needed to pass college level placement tests in mathematics. Topics include number theory, set theory, logic, polynomial operations, the Cartesian plane, solving linear and quadratic equations and transformations in the coordinate plane. A final examination will be given at the end of the course.

4601 ALGEBRA FOR COLLEGE 2

Spring Semester Only

.5 Credits, Grade 12

Prerequisites: Completion of two mathematics courses, including Algebra I

This course is designed to prepare students for the study of college level mathematics and to provide students with the skills needed to pass college level placement tests in mathematics. Topics include functions and their graphs, systems of equations/inequalities, rational expressions, irrational and complex numbers, geometry and statistics. A final examination will be given at the end of the course.

4606 FINANCIAL ALGEBRA 1

Fall Semester Only

.5 Credits, Grade 11

Prerequisites: Completion of two mathematics courses, including Algebra I

This course combines algebraic and graphical approaches to mathematics with business and personal finance applications. Project-based learning, problem solving, and real-world applications will center on the following topics: mathematical modeling for business, the stock market, banking services, consumer credit and automobile ownership. A final examination will be given at the end of the course.

4607 FINANCIAL ALGEBRA 2

Spring Semester Only

.5 Credits, Grade 11

Prerequisites: Completion of two mathematics courses, including Algebra I

This course combines algebraic and graphical approaches to mathematics with business and personal finance applications. Project-based learning, problem solving, and real-world applications will center on the following topics: employment, income taxes, independent living, planning for retirement and preparing a budget. A final examination will be given at the end of the course.

4040 FUNDAMENTALS OF MATH

1 Credit, Grades 10 ~ 12

Prerequisite: Algebra I

This course is designed for students to continue their study of mathematics. This course prepares students for college mathematics placement exams. Topics include integers and rational numbers, fundamental operations with integers, fractions and decimals, ratio and proportion, percent, algebra, geometry, and consumer and job-related problems.

4200 GEOMETRY

1 Credit, Grades 9 ~ 12

Prerequisites: Algebra I, plus Regents Exam

This course employs an integrated approach to the study of geometric relationships. Integrating synthetic, transformational, and coordinate approaches to geometry, students will justify geometric relationships and properties of geometric figures. A major emphasis of this course is to allow students to investigate geometric situations. Students will take the New York State Geometry Regents examination in June.

4210 GEOMETRY ACCELERATED

1 Credit, Grade 9

Prerequisites: Algebra I, plus Regents Exam

This is a high-level course that employs an integrated approach to the study of geometric relationships. Integrating synthetic, transformational, and coordinate approaches to geometry, students will justify geometric relationships and properties of geometric figures. A major emphasis of this course is to allow students to investigate geometric situations. Students will take the New York State Geometry Regents examination in June.

4575 | AP CALCULUS AB

1 Credit, Grade 12

Prerequisite: Precalculus

This rigorous calculus course includes an alternating day lab and is equivalent to one semester of a college calculus course. Topics include limits, continuity, differential calculus and applications, and integral calculus and applications. Concepts of the derivative and integral are based on a practical, rather than a theoretical basis. Therefore, this class is recommended for a strong mathematics student. Proficiency will be measured by class work, problem solving, homework, comprehensive examinations, and a midterm. This course prepares students for the AP Examination in Calculus AB. Students are expected to take the Advanced Placement examination in May. College credit may be obtained by scoring well on the Advanced Placement examination. Transcripts of students who do not take the AP Examination in Calculus AB will show that the student took an accelerated level of the course, not an AP Course.

4580 | AP CALCULUS BC

1 Credit, Grade 12

Prerequisite: Precalculus Accelerated

AP Calculus BC is considerably more rigorous than AP Calculus AB and is equivalent to two semesters of college calculus. This course includes an alternating day lab. In addition to the topics covered in AP Calculus AB, vector functions, parametrically defined functions, integration by parts, integration by partial fractions, and sequences and series are

included in AP Calculus BC. Therefore, this course is recommended for a very strong mathematics student. Proficiency will be measured by class work, problem solving, homework, comprehensive examinations, and a midterm examination. This course prepares students for the AP Examination in Calculus BC. Students are expected to take the Advanced Placement examination in May. College credit may be obtained by scoring well on the Advanced Placement examination. Transcripts of students who do not take the AP Examination in Calculus BC will show that the student took an accelerated level of the course, not an AP course.

4675 | AP STATISTICS

1 Credit, Grades 11 ~ 12

Prerequisite: Algebra II

This course will introduce students to the major concepts and tools for collecting, analyzing and drawing conclusions from data. Topics include data description, probability concepts, estimation procedures, statistical hypothesis testing, correlation and regression analysis. Emphasis is placed on planning and conducting statistical experiments. Students will take the AP Examination in Statistics in May.

4455 | COLLEGE PRECALCULUS

SUNY Farmingdale

(MTH 129)

1 Credit HS & 4 Credits SUNY Farmingdale

Grades 11 ~ 12

Prerequisites: Algebra II, plus Algebra II Regents > 70

This course is recommended for students who have successfully completed Algebra II and who have passed the Algebra II Regents examination. Students enrolled in this course will receive dual credit from the high school and a local college. This course is a high-level survey with topics on functions and relations, and an introduction to the study of calculus.

4460 | COLLEGE PRECALCULUS ACCELERATED

SUNY Farmingdale

(MTH 129)

1 Credit HS & 4 Credits SUNY Farmingdale

Grades 11 ~ 12

Prerequisites: Algebra II Accelerated, plus Algebra II Regents > 70

This course is recommended for students who would like to continue in the accelerated program. The course is a high-level survey course with topics on functions and relations, theory of equations, analytic geometry, theory of limits and an introduction to calculus.

4550 | COLLEGE CALCULUS

SUNY Farmingdale

(MTH 150)

1 Credit HS & 4 Credits SUNY Farmingdale

Grade 12

Prerequisite: Precalculus or Precalculus Accelerated

This is a calculus course for those wanting to take a non-AP, college-level Calculus. Topics include the derivative, differentiation of algebraic, trigonometric, exponential and logarithmic functions, applications of the derivative and the definite integral. Applications are taken from technology, science, and business. A graphing calculator is required.

4655 COLLEGE STATISTICS

SUNY Farmingdale

(MTH 110)

1 Credit HS & 3 Credits SUNY Farmingdale

Grade 12

Prerequisites: Algebra II, plus Algebra I Regents > 70 or College Probability

This course uses set theory to develop the basic concepts of finite probability. Students are introduced to tree diagrams and to counting methods of devising sample spaces. The probability of mutually exclusive events, dependent and independent events are treated. Some applications of probability distributions of discrete variables are included. Finally, the basic concepts of symbolic logic are covered.

4650 COLLEGE PROBABILITY

SUNY Farmingdale

(MTH 103)

1 Credit HS & 3 Credits SUNY Farmingdale

Grades 11 ~ 12

Prerequisites: Algebra I, plus Algebra I Regents > 70

The course is an introduction to probability and statistics theory. It will include the study of random variables, probability, and sampling distributions. Statistics, testing hypotheses and estimating parameters will also be topics covered in this curriculum. Proficiency will be measured by class work, problem solving, homework, comprehensive examinations, and a final examination.

Music

Music Department

Mr. Frank Creter, Director

GRADUATION REQUIREMENT: In order to earn a NYS Regents diploma, a student must successfully complete one credit in visual arts and/or music or theatre.

7975 AP MUSIC THEORY

1 Credit, Grade 12

Prerequisite: Music Theory 1

Advanced Placement Music Theory is a continuation of the development of skills acquired in Music Theory: aural identification, written identification, sight singing, compositional technique, and analytical technique. The course is designed to prepare students to take the AP Music Theory examination in May. After the examination is completed, acquired skills will be applied to work on a project(s) in arranging, transcribing, orchestrating, and/or composing. Exercises in listening, writing, creating, and analyzing will be assigned to foster development of these skills. Transcripts of students who do not take the AP Examination in Music Theory will show that the student took an accelerated level of this course, not an AP course.

PERFORMANCE GROUPS

Band ~ Chorus ~ Orchestra

The following performing groups pursue the art of playing a musical instrument or singing in an ensemble while also improving individual performing skills. These courses cover a broad variety of musical literature that will be read, rehearsed, and/or performed by each group. Public performances are the culmination of some of the selections prepared. The students in the performing group may also be eligible for nomination to All-County, the Long Island String Festival (string instrument players only), All-State, and All-Eastern performing organizations. The work requirements include learning about music and how to play the instrument or sing through home practice, class participation, and the preparation of assigned materials. There may be performance tests on the assigned material. Students are required to attend a weekly lesson on a rotating basis. Participation beyond the school day (sometimes involving evening and/or weekend activities) is required for students joining these groups. In addition, band students are required to participate in noncompetitive marching band and all of its activities. Students enrolling in these groups, in order to maintain membership and/or receive credit, must be prepared to make a commitment to all of the activities of the group. Therefore, students considering

enrolling in one of these courses should familiarize themselves with the requirements.

7610 | SYMPHONIC BAND

1 Credit, Grades 9 ~ 12

Prerequisites: audition and/or music teacher recommendation

7620 | CONCERT CHOIR

1 Credit, Grades 9 ~ 12

7630 | ORCHESTRA

1 Credit, Grades 9 ~ 12

(MacArthur 11 ~ 12) OR Pending Implementation of String Orchestra, a second orchestra divided by grade level(s) to ensure proper balance of instruments.

Prerequisites: audition and/or music teacher recommendation

7634 | STRING ORCHESTRA

1 Credit

Pending enrollment and implementation of second orchestra (see above) (MacArthur 9 ~ 10)

Prerequisites: audition and/or music teacher recommendation

7807 | DANCE

1 Credit, Grades 9 ~ 12

This course exposes beginners to a variety of dance styles while allowing more advanced students to expand their abilities. Dance styles explored include Ballet, Modern, Jazz, Tap, period dance, and movement of various cultures. Testing may be written, performance, and/or the critiquing of others. Recitals are after school hours. Participation beyond the school day (including evening and/or weekend activities) is required for students to receive credit and/or remain enrolled in this group. Students must be prepared to make a commitment to all the activities of the group. Appropriate clothing is required and character shoes, or other appropriate dance shoes, are recommended.

7800 | DIGITAL MUSIC PRODUCTION LAB I

1 Credit, Grades 9 ~ 12

7801 | DIGITAL MUSIC PRODUCTION LAB II

1 Credit, Grades 10 ~ 12

Prerequisite: Digital Music Production Lab I

Digital Music Production Lab 1 and 2 are designed for students who wish to gain a working knowledge of electronic music through the use of computers, software, synthesizers and other electronic devices. Digital Music Production Lab I covers the principles of sound production, recording, acoustics and sound synthesis. Previous knowledge of electronics is not required. Electronic equipment used in this class will be supplied. Students will be required to perform or demonstrate the projects they have been working on for the teacher in

class. Students will develop an independent final project.

7710 | GUITAR I

1 Credit, Grades 9 ~ 12

7711 | GUITAR II

1 Credit, Grades 10 ~ 12

Prerequisite: Guitar I or audition

7712 | GUITAR III

1 Credit, Grades 10 ~ 12

Prerequisite: Guitar II or audition

7713 | GUITAR IV

1 Credit, Grades 11 ~ 12

Prerequisite: Guitar III or audition

Note: Preference will be given to upperclassmen.

These guitar courses are designed to meet the needs of the guitar student and will equip the student with the ability to read musical notation and to develop facility on the fingerboard by playing songs and chords. Areas of study will include listening to and analyzing all styles of guitar music, performing, composing, and using technology. Students do not need to own their own guitar, as guitars are available for use in school. Students will be required to perform for the teacher on a weekly or bi-weekly basis, take written exams and develop an independent project. These courses may include performances beyond the school day.

7614 | JAZZ ENSEMBLE

.5 Credit, Grades 9 ~ 12

Prerequisites: audition and/or music teacher recommendation

Corequisite: band, except for non-band instruments

Note: For DAHS only: Jazz Ensemble meets as a club.

Students in the Jazz Ensemble will be offered the opportunity to enhance their education in music and develop their abilities as players through rehearsals and performances of jazz ensemble repertoire. In addition, portions of the course are devoted to the development of the skills associated with improvisation and the history of the uniquely American art form known as Jazz. Selections are made based upon auditions and the aptitude shown by a student as well as the instrumentation needs of the ensemble. Students taking the course for credit are graded based upon class participation, which includes attendance, class preparation, and periodic evaluations of their playing. At the end of the school year, students seeking credit will take a final examination, containing both written questions and/or a performance portion. Participation in the Jazz Ensemble involves rehearsals and performances, which may take place after school and/or on weekends. Students are required to attend all rehearsals and performances in order to maintain membership and receive academic credit, if applicable, for their participation in the course. Additional remedial instruction may be required as necessary.

7900 | MUSIC THEORY 1

1 Credit, Grades 11 ~ 12

Prerequisites: general knowledge of music and ability to read music

Music Theory 1 seeks to explore music theory and study the "building blocks" of musical composition. Students will focus on basic chord progressions and structure, major, minor, and modal scales, the ability to identify scales, intervals and chords by sight and sound, sight singing, basic four-part harmonic structure and composition techniques, and other areas. Students will be expected to develop, through classwork, homework, and practice, the aural, visual, and vocal assignments that will be given to assess mastery and development of skills. Tests will be given involving aural, written, and vocal skills in order to evaluate the degree to which these skills are being mastered and/or developed.

7720 | PIANO I

.5 Credit, Grades 9 ~ 12

7721 | PIANO II

.5 Credit, Grades 10 ~ 12

Prerequisite: Piano I or audition

7722 | PIANO III

.5 Credit, Grades 10 ~ 12

Prerequisite: Piano II or audition

7723 | PIANO IV

1 Credit, Grades 10 ~ 12

Prerequisite: Piano III or audition

The piano course is designed to meet the needs of the novice piano student and/or experienced piano student. Students will learn to read musical notation and to develop facility on the keyboard by playing compositions. Areas of study will include listening to and analyzing all styles of piano music, performing, music history, composing and using technology.

Physical Education

Physical Education Department

Mr. John Cosica, Director

Mr. Jeff Aiello & Mr. Christopher Letts, Chairpeople

GRADUATION REQUIREMENT: In order to earn a NYS Regents diploma, a student must successfully complete two credits in Physical Education and one-half credit in Health.

8300 | PHYSICAL EDUCATION

.5 Credit, Grades 9 ~ 12

The goals of the physical education program are consistent with the total school curriculum. Physical education's unique contribution lies in the area of education through the use of physical activity as the instrument in the development of organic growth, sound moral ideas through intensive participation under proper leadership, psychological development, including emotional stability resulting from stimulating physical and social experiences, safety skills, and recreational skills that have a distinct function as hobbies for leisure time hours.

8310 | EXTREME PE & SPORTS

.5 Credit, Grades 9 ~ 12

Note: Counts towards Physical Education credit.

This course is designed for the most competitive students. It is a step above the traditional physical education class where competition and sport will be at the forefront. Extreme Physical Education will provide the opportunity for students to participate in an extremely intense, highly competitive physical education experience. Extreme Physical Education class will present rigorous fitness challenges, competitive game play, and advanced game strategies. This class will utilize the sports education model periodically

throughout the semester in order to provide students with the fundamental principles of collegiate and professional athletics. A primary goal of the curriculum is to provide students with an awareness of their own health related to physical wellness, and to promote their desire to remain active and fit throughout life.

8305 | WEIGHT TRAINING & CROSSFIT

.5 Credit, Grades 11 ~ 12

Note: Counts towards Physical Education credit.

The purpose of this course is to teach students the basic principles of strength and fitness training while incorporating proper nutrition. Students will learn various training techniques such as resistance training, machine/free weight training, plyometrics, and core training. This class will also cover Olympic style lifting as well as speed and agility. Through classroom and hands-on experience, students will learn and practice proper lifting and spotting techniques and develop new and exciting ways to train. Students will learn and apply the principles to develop a personalized workout program.

8307 | SPIN & PERSONAL FITNESS

.5 Credit, Grades 11 ~ 12

Note: Counts towards Physical Education credit.

A journey through mindfulness, personal fitness and cycling. This course is designed to give students the opportunity to improve themselves mentally and physically with cardio-respiration, endurance, strength, and flexibility. Each week students will be led through various spinning routines, participate in flexibility activities, and take part in an overall wellness training program that includes strength training.

8312 | YOGA & WELLNESS

.5 Credit, Grades 11 ~ 12

Note: Counts towards Physical Education credit.

This course is designed to meet the needs of our students' physical, emotional and social well-being. The focus is on improving the body and mind through the use of yoga postures, breathing techniques, walking, and meditation. Yoga practices will help the students physically achieve things such as protection from injury, improved athletic performance, cardio and circulatory health, weight reduction, a balanced metabolism, strength, balance, and flexibility. Through the use of themes, meditation and community circle activities, students will also develop self-awareness, self-management, responsible decision making, relationship skills, and social awareness.

8314 | OUTDOOR EDUCATION

.5 Credit, Grades 11 ~ 12

Note: Does NOT counts towards Physical Education credit.

This course will help students gain self-confidence while participating in various outdoor activities. Students will learn to develop trust amongst themselves through participation in communication, problem solving, team building, risk taking and cooperative activities. Throughout the course, students will be exposed to activities that are outside the regular physical education curriculum. High elements of the adventure curriculum, the burma bridge and the zip line will also be utilized. Field trips will be offered for an additional fee. Please note this course is an elective and does not meet the physical education requirement.

8300M | PHYSICAL EDUCATION SKILLS

.5 Credit, Grades 9 ~ 12

Prerequisite: Prior approval

This course meets the requirement of physical education. Enrollment in this class is for those students who have a medical condition and are unable to participate in a regular physical education class. The activities offered in this class are developmentally appropriate to the physical capacity of each individual student.

8400 | HEALTH EDUCATION

.5 Credit, Grades 9 ~ 12

This course is required for graduation. The health curriculum is concerned with the physical, mental, emotional and social health of the individual student. This course includes a study of oneself: personality and personality traits, emotions and their relationship to the body and reactions to the problems of living in today's world. Types of mental illness and their treatment are also discussed. A strong emphasis is placed on the effects of drugs, alcohol and smoking. Students also study nutrition, relationships, disease and first aid. A final examination is given.

8407 | CPR/FIRST AID AND EMERGENCY RESPONSE

.5 Credit, Grades 11 ~ 12

Prerequisite: Health Education

Note: Does NOT counts towards Health credit.

The purpose of this course is to train students to respond appropriately to emergency situations. Students will receive a certification if they successfully meet the standards required by the certifying agency. This course teaches the skills you will need to manage emergency situations until emergency medical services personnel arrive and take over.

8409 | INTRODUCTION TO SPORTS MEDICINE & ATHLETIC TRAINING

.5 Credit, Grades 11 ~ 12

Prerequisite: Health Education

Note: Does NOT counts towards Health credit.

Through classroom engagement and hands-on experience, students will become familiar with the concepts relevant to sports medicine. Students will learn to prevent, treat and evaluate athletic injuries and maintain an efficient, professional athletic training facility.

8412 | PERSONAL WELLNESS

.5 Credit, Grades 11 ~ 12

Prerequisite: Health Education

Note: Does NOT counts towards Health credit.

A course designed to make the student aware of stress and how it can impact his/her quality of life. It will provide methods for identifying stressors and strategies to effectively manage them. Students will be able to construct a personalized lifestyle management program.

8403/8403 | HEALTH BEYOND HIGH SCHOOL

.5 Credit, Grade 12

Prerequisite: Health Education

Note: Does NOT counts towards Health credit.

This course helps students prepare for independent living by focusing on practical aspects of personal health and wellness. Topics include healthy relationships, mental wellness, personal safety, self-care, nutrition, and basic medical management. Students will develop skills in communication, decision-making, and organization to support their physical, emotional, and social well-being beyond high school.

Science

Science Department

Mr. Kevin McDermott, Director

GRADUATION REQUIREMENT: To earn a NYS Regents diploma, a student must successfully complete three credits in Science. At least one must be in the Life Sciences; at least one must be in the Physical Sciences; the third credit may be either Life Sciences or Physical Sciences AND the student must pass one Science regents exam. In order to earn a NYS Regents diploma with Advanced Designation, a student must pass an additional Science regents exam.

335 | PHYSICAL SETTING/APPLIED CHEMISTRY

1 Credit, Grades 11 ~ 12

Prerequisites: Earth Science and Living Environment

This course is designed for the college bound and the non-college bound student who wishes to acquire a knowledge of chemistry. Chemistry examines matter, its composition, its structure and the changes it undergoes. This diversity of information is unified through the study of atomic theory, the periodic table and chemical bonding. Investigations serve to demonstrate and reinforce the chemical principles studied. The course meets for 1 period daily. Students are not eligible to take the Chemistry Regents examination.

3700 | FORENSICS I

.5 Credit, Grades 10 ~ 12

Prerequisites: Earth Science and Living Environment (Seniors may be exempt from these)

Forensic I is an introductory course that will study the use of basic scientific concepts and technologies related to solving crime. Through the study of forensic scientific techniques, students are given the opportunity to explore and further understand how basic scientific concepts apply to the field of criminalistics. This course will include topics such as: introduction, crime scene, physical evidence, fingerprints, DNA, serial killers, microscopes, hairs and fibers.

3701 | FORENSICS II

.5 Credit, Grades 10 ~ 12

Prerequisites: Forensics I, Earth Science, and Living Environment (Seniors may be exempt from these)

Forensics II will cover the topics in criminalistics that were not covered in the introduction to Forensics. These topics include toxicology, serology, ballistics and

firearms, arson and explosives, organic and inorganic analysis, document and handwriting analysis and anthropology.

3100 LIFE SCIENCE: BIOLOGY R

1 Credit, Grade 9

The NYS Biology Regents course includes 7 topics: Structure and Function, Matter and Energy in Organisms and Ecosystems, Interdependent Relationships in Ecosystems, Inheritance and Variation of Traits, Natural Selection and Evolution, Earth's Systems, and Engineering, Technology, and the Application of Science. Successful completion of 1200 minutes of lab work is required to be eligible for the Regents exam; included in these minutes are the three investigations as prescribed by the State. This course will culminate in the Biology Regents Exam and has an alternate day laboratory.

3600 MARINE SCIENCE (BIOLOGY)

.5 Credit, Grades 10 ~ 12

Prerequisites: Earth Science and Living Environment (Seniors may be exempt from these)

This course will serve as a survey of biotic responses to ecological challenges in different aquatic realms. Controls of diversity and trophic structure in the marine ecosystem, historical aspects of marine realms, productivity in the oceans, plankton, soft-bottom communities, intertidal habitats, coral reefs, deep-sea environments and the effects of pollution in the ocean are discussed.

3310 PHYSICAL SETTING/CHEMISTRY ACCELERATED

1 Credit, Grades 10 ~ 12

Prerequisites: Earth Science Accelerated, Living Environment Accelerated, Algebra I, Geometry, and teacher recommendation

The content of this accelerated course is essentially the same as that of an enriched Chemistry R with greater mathematical rigor. Students will take a midterm examination in January and a Regents examination in June. Laboratory is an integral part of the course. Investigations serve to demonstrate and reinforce the chemical principles studied. Thirty laboratory credits are required to take the regents. This course has an alternate day laboratory.

3300 PHYSICAL SETTING/CHEMISTRY R

1 Credit, Grades 10 ~ 12

Prerequisites: Earth Science, Living Environment, Algebra I, Geometry, and enrolled in Algebra II

This course is recommended for the college-bound and technically oriented students. It is a key part of the firm scientific foundation needed in today's technological world. Chemistry examines matter, its composition, its structure and the changes it undergoes. This diversity of information is unified through the study of atomic theory, the periodic table and chemical bonding. Further interactions of matter are explored as the student learns about matter and energy, kinetics and equilibrium, acid-base theory,

electrochemistry and organic chemistry. Throughout this course, the student will see how these abstract chemical principles explain phenomena encountered in many of his/her daily activities. Students will take a midterm examination in January and a Regents examination in June. Laboratory is an integral part of the course. Investigations serve to demonstrate and reinforce the chemical principles studied. Thirty laboratory credits are required to take the regents. This course has an alternating day laboratory.

**3302 | PHYSICAL
SETTING/CHEMISTRY R – 2
(DOUBLE PERIOD)**

1 Credit, Grades 11 ~ 12

Prerequisites: Earth Science, Living Environment, Algebra I, Geometry, and enrolled in Algebra II, and teacher recommendation

This course is recommended for the college bound student who wishes to take Chemistry in an everyday double period format. It is a key part of the firm scientific foundation needed in today's technological world. Chemistry examines matter, its composition, its structure and the changes it undergoes. This diversity of information is unified through the study of atomic theory, the periodic table and chemical bonding. Further interactions of matter are explored as the student learns about matter and energy, kinetics and equilibrium, acid-base theory, electrochemistry and organic chemistry. Throughout this course, the student will see how these abstract chemical principles explain phenomena encountered in many of his/her daily activities. Students will take a midterm examination in January and a Regents examination in June. Laboratory is an integral

part of the course. Investigations serve to demonstrate and reinforce the chemical principles studied. Thirty laboratory credits are required to take the regents.

**3210 | EARTH & SPACE SCIENCES
ACCELERATED**

1 Credit, Grade 9

Prerequisites: Living Environment or Life Science: Biology and teacher recommendation

The NYS Earth & Space Sciences Regents course includes 6 topics: Space Systems, History of Earth, Earth's Systems, Weather & Climate, Human Sustainability, and Engineering, Technology, and the Application of Science. Successful completion of 1200 minutes of lab work is required to be eligible for the Regents exam; included in these minutes are the three investigations as prescribed by the State. This course will culminate in the Earth and Space Regents Exam and has an alternate day laboratory.

3200 | EARTH & SPACE SCIENCES R

1 Credit, Grades 9 ~ 10

Prerequisite: Living Environment or Life Science: Biology

The NYS Earth & Space Sciences Regents course includes 6 topics: Space Systems, History of Earth, Earth's Systems, Weather & Climate, Human Sustainability, and Engineering, Technology, and the Application of Science. Successful completion of 1200 minutes of lab work is required to be eligible for the Regents exam; included in these minutes are the three investigations as prescribed by the State. This course will culminate in the Earth and Space Regents Exam and has an alternate day laboratory.

3400 | PHYSICAL SETTING/ PHYSICS R

1 Credit, Grades 11 ~ 12

Prerequisites: Earth Science, Living Environment, Chemistry R, and Algebra II

This course consists of the study of matter, energy and the effects of energy on matter. It is recommended for students who desire to attend college or technical school. It completes the scientific foundation needed in our technological world. Areas covered include mechanics, heat, light, sound, electricity, electronics and nuclear energy. The fundamental principles in each area and their mathematical relationships are studied through lectures, teacher demonstrations and student experimentation. Students will see that physics and physics problems are present in the real, everyday world. Students will take a midterm examination in January and a Regents examination in June. Laboratory is an

integral part of the course. Thirty laboratory credits are required to take the regents. This course has an alternate day laboratory.

3603 | SCIENCE OF NATURAL DISASTERS

.5 Credit, Grades 11 ~ 12

Prerequisites: Earth Science and Living Environment (Seniors may be exempt from these)

This course focuses on an investigative exploration of significant geological and biological hazards impacting the earth. There will be an emphasis on volcanoes, earthquakes, hurricanes, tornadoes, pollution, tsunamis and floods. Emergency preparedness and readiness to respond to a natural disaster crisis will be stressed within a discussion of the geological and biological processes governing each type of disaster. This course can be used to fulfill students' graduation requirement of three years of science for a Regents diploma or an Advanced Regents diploma. Students must have successfully completed two years of Regents science for admission to the course.

3500a SCIENCE RESEARCH I

(Alternate Days)

.5 Credit, Grades 9 ~ 10

Prerequisite: final average of 90 or above in Science

This is an introductory research class that is designed to expose students to research techniques. This course is designed to help develop effective research skills and abilities. The overall goal of the course is to prepare students to conduct advanced research projects if they move forward in the program. Students will also have the opportunity to compete in various science competitions.

3501a SCIENCE RESEARCH II

(Alternate Days)

.5 Credit, Grades 10 ~ 12

Prerequisites: Research I (final average of 90 or above) and teacher recommendation

The Science Research program provides students with the first opportunity for in-depth study and individual instruction in the principles and methods of scientific research: from the initial acquisition of a specialized field, through the recognition and evaluation of questions, the framing of hypotheses, the design of experiments and sampling, the collection, analysis and interpretation of data, and the reporting of results. The overall goal of this course is for students to prepare to compete in various science competitions.

3175 AP BIOLOGY

(BIO 126/BIO 127)

1 Credit, Grades 10 ~ 12

Prerequisites: Earth Science, Living Environment, and Chemistry Accelerated

This is a second level Biology course. Through lectures, seminars, and individual investigations, the course develops a basic core of biological knowledge in the areas of biochemistry, cytology, histology, vertebrate physiology, genetics evolution and ecology. The students are introduced to basic laboratory skills (the use of analytical balance, pipetting, volumetric measurement, microscopic techniques). The development of research skills, the ability to produce a well-organized scientific paper and give oral seminars on current biological topics is stressed. This course has an alternate day laboratory. A midterm and final examination are given. Students are encouraged to take the advanced placement exam for college credit and may also purchase credits through Molloy University. Transcripts of students who do not take the AP Examination in Biology will show that the student took an accelerated level of the course, not an AP course.

3575 AP CAPSTONE RESEARCH

1 Credit, Grades 11 ~ 12

Prerequisites: completion of AP Capstone Seminar including the end of course exam and all required performance task and teacher recommendation

This course allows students to deeply explore an academic topic, problem, or issue of individual interest. Through this exploration, students design, plan, and conduct a yearlong investigation to address a research question. Students will further develop their

skills acquired in the AP Seminar course by learning research methodology, employing ethical research practices, and accessing, analyzing, and synthesizing information. Using a process and reflection portfolio, students document their inquiry processes, communication with their teachers and expert advisers, and reflections on their thought processes. Students will present and defend the topic of inquiry/research question, approach, and findings or product to a panel.

3375 | AP CHEMISTRY

1 Credit, Grades 11 ~ 12

Prerequisites: Earth Science, Living Environment, Chemistry, Algebra I, Geometry, and Algebra II/Trigonometry

This is a second level Chemistry course. After reviewing the basic concepts learned in regents Chemistry, the student will study in depth, the nature of matter, atomic structure, chemical bonding, stoichiometry, solutions, kinetics and equilibrium and electrochemistry. Laboratory is an integral part of the course, including both qualitative and quantitative investigations. The latter third of the year is devoted almost completely to laboratory work with the study of qualitative analysis. A midterm and final examination are given. Students are encouraged to take the advanced placement exam for college credit. Transcripts of students who do not take the AP Examination in Chemistry will show that the student took an accelerated level of the course, not an AP course.

3675 | AP ENVIRONMENTAL SCIENCE

1 Credit, Grades 11 ~ 12

Prerequisites: Earth Science, Living Environment, Chemistry, Algebra I, and Geometry

This course is a cross disciplinary course, incorporating elements of study from biology, chemistry, geography, oceanography and earth science as well as environmental studies. It is a rigorous course that stresses scientific principles and analysis and includes a laboratory component. Transcripts of students who do not take the AP Examination in Environmental Science will show that the student took an accelerated level of the course, not an AP course.

3475 | AP PHYSICS I

1 Credit, Grades 11 ~ 12

Prerequisites: Algebra II and Chemistry

AP Physics 1 is equivalent to a first semester introductory college-level algebra-based physics course. Students will explore concepts such as Newtonian mechanics, fluid mechanics, thermodynamics, electricity, magnetism, waves, optics and atomic and nuclear physics. In addition, they will build critical thinking skills through inquiry-based, laboratory investigations that explore these physics concepts. Students will be expected to complete extensive student-centered laboratory reports. All students will take the Physics 1 Advanced Placement exam in May as well as the Physical Setting/Physics regents examination in June. The course meets for two periods each day. Students are encouraged to take the advanced placement exam for college credit and may

also purchase credits through Molloy University. Transcripts of students who do not take the AP Examination in Physics I will show that the student took an accelerated level of this course, not an AP course.

3476 | AP PHYSICS II

1 Credit, Grade 12

Prerequisite: Physics I

AP Physics II is equivalent to a college-level algebra-based physics course. There is an emphasis on problem solving and laboratory skills. Students will be expected to complete extensive student-centered laboratory reports. Students explore principles of fluids, thermodynamics, electricity, magnetism, optics and topics in modern physics. The course is based on seven Big Ideas, which encompass core scientific principles, theories, and processes that cut across traditional boundaries and provide a broad way of thinking about the physical world. All students will take the Physics II Advanced Placement exam in May. The course meets with a lecture one period each day with an alternating day lab period. Transcripts of students who do not take the AP Examination in Physics II will show that the student took an accelerated level of this course, not an AP course.

3150 | COLLEGE BIOLOGY

(BIO 126/BIO 127)

Full Year, 1 HS Credit & up to 8 if both courses purchased with Molloy University

Grades 11 ~ 12

Prerequisites: Earth Science, Living Environment, Chemistry, and teacher recommendation

This course is recommended for students who would like to earn college credit in science. It includes a study of basic biological mechanisms at the cellular and molecular level. Covers the organization of cells, cellular energy, metabolism, cellular reproduction, genetics, evolution, biological diversity, principles of organ systems in plants and animals, and an introduction to ecology. Students that attain a C or better in the course will earn up to 8 credits through Molloy University.

3450 | COLLEGE PHYSICS

(PHY 2700)

Full Year, 1 HS Credit & 4 Credits Molloy University

Grades 11 ~ 12

Prerequisites: Algebra II and a SAT Math score of 450 or above

This course is recommended for students who would like to earn college credit in science. A study of the fundamentals of mechanics-velocity, forces, momentum and energy. Students that attain a C or better in the course will earn 4 credits through Molloy University. All students will take the College Physics Final in May, as well as the Physical Setting/Physics Regents examination in

June. This course has an alternate day laboratory.

3650 COLLEGE MARINE BIOLOGY

(BIO 1510)

.5 HS Credit & 3 Credits Molloy University

Grades 11 ~ 12

Prerequisite: Regents Chemistry

This course is a study of marine organisms and their aquatic habitats. Field trips will be required. Students that pass the course with a C or higher can receive 3 credits through Molloy University (Bio 1510).

3155 COLLEGE ANATOMY & PHYSIOLOGY

(BIO 1200)

1 Credit & 4 Credits Molloy University

Grades 11 ~ 12

Prerequisite: Regents Chemistry

This course is a comprehensive, in-depth study of the human body encompassing basic concepts of cell structure and function, as well as general histology. An anatomical and physiological approach to each of the following systems is pursued with medical ramifications where applicable — integumentary, skeletal, muscular, reproductive, central and peripheral nervous systems along with basic concepts of development and genetics. Students that pass the course with a C or higher can receive 4 credits through Molloy University (Bio 1200).

3750 COLLEGE FORENSICS

(CHEM 113)

1 HS Credit & 4 Credits Syracuse University (SUPA)

Grades 11 ~ 12

Prerequisite: Regents Chemistry

Introduction to forensic science with focus upon the application of scientific methods and techniques to criminal justice and law. Methods specifically relevant to crime detection and analysis will be presented. Laboratory included.

3850A COLLEGE ASTRONOMY

(Alternate Days)

(ESC 1150)

.5 HS Credit & 3 Credits Molloy University

Grades 11 ~ 12

This course explores the role of astronomy in shaping humanity's cultural and scientific heritage. Students will examine the methods of observation and analysis used by astronomers to study the universe and gain hands-on experience through experiments in physical measurement. The course also includes a visit to a planetarium to deepen students' understanding of astronomical concepts and phenomena.

**3140A COLLEGE INTRODUCTION
TO HEALTH PROFESSIONS**

(Alternate Days)

(HSC 101)

.5 HS Credit & 3 Credits Long Island
University

Grades 11 ~ 12

Prerequisites/Corequisite: Students must
have completed or be concurrently
enrolled in one of the following courses:
College Biology, AP Biology, or Anatomy
and Physiology.

This course introduces students to a variety of professions in the health care field. It provides an overview of health care systems, delivery, and priorities at the national and local levels. Students will explore different health careers, focusing on the qualities, skills, values, ethics, and professional behaviors required in each field. The course also covers medical terminology, research and library skills, and includes practical activities such as creating a professional resume. Students will have opportunities to examine career tasks, tools, work environments, and educational and legal requirements to help guide their future career choices.

3477 AP PHYSICS C MECHANICS

(Daily for 1 Period)

1 HS Credit

Grades 11 ~ 12

Prerequisite: AP Physics I

This course is a calculus-based, college-level physics course designed for students planning to major in the physical sciences or engineering. Students explore motion, force interactions, fields, and conservation principles through classroom study, interactive activities, and hands-on, inquiry-based laboratory work.

Social Studies

Social Studies Department

Mr. Patrick Burke, Director

GRADUATION REQUIREMENT: To earn a NYS Regents diploma, a student must successfully complete four credits in Social Studies as follows: Global History and Geography I, Global History and Geography II, US History and Government, Participation in Government (or an alternate approved course) and Economics AND the student must pass the regents exams in Global History, Geography and US History and Government.

2280 & 2665 AP US GOVERNMENT & POLITICS/ECONOMICS ACCELERATED

(POL 1010)

.5 per course & 3 Credits Molloy University

Grade 12

Prerequisites: United States History and Government or AP Unites States History, completion of summer assignment

Note: These two courses must be taken together.

to develop a rational decision-making process related to various economic topics. This training will help our students to function more effectively and intelligently as citizens and participants in the United States and world economies. Transcripts of students who do not take the AP Examination in US Government & Politics/Accelerated Economics will show that the student took an accelerated level of the course, not an AP course. Students enrolled in this course have the option of receiving dual credit from the high school and a local college.

AP US Government and Politics prepares students to take the Advanced Placement Exam in May. The course requires an understanding of the constitutional structure of American government; the political beliefs and actions of its citizens, political parties and pressure groups; the institutions and policies of the government; the working of the three branches; the development of civil liberties; and the economic policies of the United States. In Accelerated Economics, basic concepts such as scarcity, productivity, capitalism, interdependence and the business cycle will be stressed together with a program

**2690 & 2565 | AP ECONOMICS
(MACROECONOMICS) &
GOVERNMENT ACCELERATED**

(ECO 2000)

.5 per course & 3 Credits Molloy
University

Grade 12

Prerequisites: United States History and
Government or AP Unites States History,
and completion of summer project

*Note: These two courses must be taken
together.*

AP Macroeconomics prepares students to take the Advanced Placement exam in May. It is a college level course that focuses on the principles that apply to an economic system as a whole. Emphasis is placed on the study of national income and price determination, economic performance measures, economic growth and international economics. In Accelerated Government, the focus is on participation in government. This course will stress interaction between the citizen and his or her government. Basic civic values and analytical concepts will be developed and reinforced. Students will study how and why political decisions are made which will lead them into actual participation in political decision-making. In May, students will take an AP examination in Macroeconomics. Transcripts of students who do not take the AP Examination in Economics/Accelerated Government will show that the student took an accelerated level of this course, not an AP course. Students enrolled in this course have the option of receiving dual credit from the high school and a local college.

**2180 & 2664 | AP HUMAN
GEOGRAPHY & GLOBAL
ECONOMICS**

.5 per course, Grade 12

Prerequisites: Global History and
Geography II or AP World History

*Note: These two courses must be taken
together.*

AP Human Geography allows students to learn about world population issues, border disputes, and international conflicts. In addition, students are exposed to economic theories and models as well as world religions and the origins and diffusion of languages. They also study urban development, industrialization, and city planning. Overall, AP Human Geography students will explore topics ranging from farming to pandemic disease. This course satisfies both the Government and Economics New York State graduation requirements. Transcripts of students who do not take the AP Examination in Human Geography will show that the student took an accelerated level of this course, not an AP course.

2875 AP PSYCHOLOGY

(PIA 101)

1 Credit & 3 Credits Adelphi University

Grades 10 ~ 12

Prerequisites: Living Environment R/ACL

This course is designed to introduce students to the systematic and scientific study of behavior and mental processes of human beings and other animals. Students are exposed to the psychological facts, principles, and phenomena associated with each of the major subfields of psychology. The course will develop a basic core of knowledge in the areas of consciousness, learning, biopsychology, sensation, perception, cognition, motivation, emotion, development, personality, abnormal psychology, and social psychology. Students will also explore the methods psychologists use in their science and their practice. Transcripts of students who do not take the AP Examination in Psychology will show that the student took an accelerated level of this course, not an AP course.

2275 AP UNITED STATES HISTORY

(HIST 1110/HIST 1120)

1 Credit & 6 Credits Molloy University

Grade 11

Prerequisites: Global History and Geography II or AP World History, and completion of summer assignment

This course is an introductory college-level course. Students will study U.S. History from 1491 to the present through analyzing primary sources as well as secondary source materials. Students will learn to make connections and develop historical

arguments. Students will explore concepts like American and national identity; work, exchange, and technology; geography and the environment; migration and settlement; politics and power; America in the world; American and regional culture; and social structures. This course will also prepare students for the United States History and Government Regents in June. Transcripts of students who do not take the AP examination will show that the student took an accelerated level of this course, not an AP course. Students enrolled in this course have the option of receiving dual credit from the high school and a local college.

2175 AP WORLD HISTORY

(HIST 1010)

1 Credit & 3 Credits Molloy University

Grade 10

Prerequisites: Global History I or 9 ACL, and completion of summer assignment

This course begins c 1500 and continues building on skills and knowledge gained in Pre-AP World History, with a focus on setting historical and geographical context. The course curriculum focuses on global experience, with relevant factual knowledge in conjunction with leading interpretative issues and types of historical evidence. Periodization forms the organizing principle for dealing with change and continuity from the year 1200 to the present. Historical reasoning skills receive approximately equal attention throughout the course and serve as unifying threads: the impact of interaction among major societies, the relationship of change and continuity across the world history periods, the impact of technology and demography on people and the environment, systems of social structure

and gender structure, cultural and intellectual developments among and within societies, and the changes in functions and structures of states and in attitudes toward states and political identities. Transcripts of students who do not take the AP Examination in World History will show that the student took an accelerated level of this course, not an AP course. Students enrolled in this course have the option of receiving dual credit from the high school and a local college.

2803 | ABNORMAL PSYCHOLOGY

.5 Credit, Grades 10 ~ 12

This course focuses on abnormal behavior as described in the Diagnostic and Statistical Manual. Topics include but are not limited to mental health disorders (e.g.: eating disorders, anxiety, depression, obsessive-compulsive disorder, personality disorders, the psychology of serial killers, guilt by insanity, and psychotherapy) and the history of treatment for those disorders. Abnormal Psychology is a half-year class that culminates with a final exam or a project-based assignment.

2504 | CURRENT LEGAL ISSUES

.5 Credit, Grades 11 ~ 12

This is a course designed for students interested in law, government and politics. It examines a wide range of contemporary issues subject to Constitutional interpretation, enhancing student understanding of the Constitution and the role of the courts. Students discuss and analyze topics including freedom of speech, affirmative action, the death penalty, gun control, civil rights, abortion, privacy issues, drug testing, bias in the media and students' rights. This course satisfies the NY State Government course

requirement and may be taken in lieu of the 12th grade government requirement.

2704 | 21st CENTURY LEADERSHIP and DEVELOPMENT

.5 Credit, Grades 10 ~ 12

This is a course in which students develop leadership, professional and business skills. They learn to foster a healthy self-concept, healthy relationships, and to understand the concept of personal responsibility and social media's impact on image. Students will develop an understanding of emotional intelligence and the skills it measures, which include self-awareness, self-control, self-motivation, and social skills. Students also develop skills in public speaking and communications. They will have an understanding of the concept of principle-based decision-making and learn to make responsible decisions. In addition, students will develop an understanding of the effects of peer pressure, skills to counteract those effects, bullying prevention and defending skills, and problem-solving skills. As members of a community, students also develop leadership skills practiced in the form of community service. They will also develop an understanding of the need for vision in goal setting, both personally and professionally.

2600 ECONOMICS R

.5 Credit, Grade 12

Prerequisites: United States History and Government or AP United States History

Basic concepts such as scarcity, productivity, capitalism, interdependence and the business cycle will be stressed together with a program to develop a rational decision-making process related to various economic topics. This training will help our students to function more effectively and intelligently as citizens and participants in the United States and world economies. There is a district-wide final examination for this course.

2812 ETHICS

.5 Credit

Grades 10 ~ 12

Prerequisite: Global History I

This course will explore the history of moral tradition and the nature of moral reasoning. It will consider the question of “How to Live” based on different moral perspectives. The moral dilemmas we face as a society will be addressed in the following areas: business, health care, medical practices, crime and everyday life decisions. This course fully supports the commencement goals of Levittown Schools, in particular the goal of respecting yourself, respecting others and respecting the environment. This course will encourage students to think critically about problems and topics that are part of everyday life, both personally and as a society. This course is offered alternating years.

2130 GLOBAL HISTORY AND GEOGRAPHY I

Pre-Advanced Placement World History

1 Credit, Grade 9

This course is designed to provide challenging material for the accelerated level student. It is a chronological examination of world history from prehistory until the mid-18th century. Many facets of culture are studied, including religion, geography, economics, political science, anthropology, history, sociology, and archaeology. Major culture regions are covered, specifically East Asia, South Asia, the Middle East, sub-Saharan Africa, Latin America, Eastern Europe, and Western Europe. Many social studies skills are developed in this course, including critical thinking, analyzing primary sources, media research and essay writing. This course provides the foundation for Advanced Placement World History, to be taken during sophomore year.

2100 GLOBAL HISTORY AND GEOGRAPHY I R

(Social Studies 9 R)

1 Credit, Grade 9

This course is a study of world history from prehistory until the mid-18th century. Many facets of culture are examined, including religion, geography, economics, political science, anthropology, history, sociology and archaeology. Major culture regions are covered, specifically East Asia, South Asia, the Middle East, sub-Saharan Africa, Latin America, Eastern Europe, and Western Europe. Many social studies skills are developed in this course, including critical

thinking, analyzing primary sources, media research and essay writing. This course comprises the first year of the two year sequence in Global History and Geography.

2101 GLOBAL HISTORY AND GEOGRAPHY II R

(Social Studies 10 R)

1 Credit, Grade 10

Prerequisites: Global History and Geography I R or 9 ACL

This course provides a chronological study of world history from 1750 to the present. Many facets of society are examined including religion, geography, anthropology, history, political science, sociology, and economics. The world's major culture regions are studied. These include East Asia, South Asia, the Middle East, sub-Saharan Africa, Latin America, Eastern Europe and Western Europe. The skills necessary for success on the Regents exam are emphasized including critical thinking, analyzing documents and writing essays. The New York State Global History Regents is given in June.

2500 GOVERNMENT R

.5 Credit, Grade 12

Prerequisites: United States History and Government or AP United States History

This is a half-year course that examines the practical functions of various levels of government. Students will learn how the federal system works and the interrelationship among town, county, state, and national governments. An emphasis is placed on the importance of active participation by an

informed citizenry. There is a district-wide final examination for this course.

2214 HISTORY OF THE PRESIDENCY

.5 Credit

Grades 11 ~ 12

This course will enhance student understanding of the United States Government, specifically the Executive Branch. Students will examine the process utilized for electing the President and analyze the efficacy of this procedure. Notable Presidents will be discussed, along with the achievements and critical decisions of their administrations. The many roles and responsibilities of the President will be analyzed, as well as the limitations on Executive power. Basic civil values and analytical concepts will be reinforced. This course satisfies the NY State Government course requirement and may be taken in lieu of the 12th grade government requirement.

2750 HUMAN RIGHTS ISSUES: AN EXAMINATION OF RACISM AND GENOCIDE

(HUM 111)

.5 Credit & 3 Credits Suffolk County Community College

Grades 10 ~ 12

Prerequisite: Global History I or 9 ACL

The purpose of this course is to foster understanding of the historical elements of the human rights movement and the significance of international human rights laws and humanitarian action in the 20th and 21st century. We will examine the roles that the international community (nation-states,

the United Nations, and civil society) play in protecting human rights. Human rights issues such as genocide, ethnic conflict, child soldiers, women's rights, human trafficking, political inequalities, and poverty will be studied. Furthermore, this course will look at various case studies involving human rights issues, and specific individuals who have actively worked to improve conditions related to basic rights. This course satisfies the NY State Government course requirement and may be taken in lieu of the 12th grade government requirement. Students enrolled in this course have the option of receiving dual credit from the high school and a local college.

2709 | NEW YORK CITY

.5 Credit

Grades 11 ~ 12

This course will focus on the historical and modern development of New York City. Through the study of New York City's geography, demographics, diverse culture, economy, political system, and current social issues, students will gain valuable knowledge about this great cosmopolitan resource. Students will have the opportunity to participate in field trips and experience what the city has to offer firsthand. These trips will allow students to navigate Mass Transit, experience different neighborhoods, and see historical sites and buildings. This course is offered alternating years.

2815 | PHILOSOPHY

.5 Credit

Grades 10 ~ 12

This course will highlight and investigate a person's view of himself/herself and his/her relationship with the world. Major philosophical questions will be discussed in the light of various philosophical schools of thought. Important philosophers to be examined include Socrates, Plato, Aristotle, Confucius, Kant, Hume, Nietzsche, Heidegger, Rousseau, Huxley, and James. This course is offered in alternate years.

2800 | PSYCHOLOGY

.5 Credit

Grades 10 ~ 12

The focus of this course is human behavior and the mind. Topics include personality development, abnormal behavior, therapy, and learning styles. Throughout the course attention is given to career opportunities in the field of psychology. Psychology is a half-year course that culminates with a final examination or a project-based assignment.

2700 | SOCIOLOGY

.5 Credit

Grades 10 ~ 12

This course studies people and their relationship to society. This is achieved through research and the study of social institutions, both past and present. Students examine many contemporary topics such as crime, poverty, justice, bias, and societal norms. There is a final examination or a project-based assignment at the end of this half-year course. This course is offered in alternate years.

2200 | UNITED STATES HISTORY AND GOVERNMENT R

(Social Studies 11 R)

1 Credit, Grade 11

Prerequisites: Global History and Geography II R or AP World History

This course centers on United States History and Government from the Colonial Era to the current day. Main topics include the study of government as it relates to historical events, American business, industry, labor and other developments that impact the United States' domestic and foreign relations. Students are challenged to develop analytical skills that foster a deeper understanding of American history, while enhancing key academic competencies such as persuasive essay writing and examination of sources. The United States History Regents examination is given in June.

TECHNOLOGY

Technology Department

Mr. Kevin McDermott, Director

5803 DESIGN AND DRAWING FOR PRODUCTION

1 Credit

Grades 9 ~ 12

Through hands-on projects students apply engineering standards and document their work. Students use industry standard 3D modeling software to help them design solutions to solve proposed problems. This is a great starter course for all students interested in engineering, architecture, and drafting. Students will use traditional and computer aided drafting (CAD) while exploring new and exciting design problems. Successful completion of this course satisfies the NYS graduation requirement in art.

5900 ROBOTICS I

1 Credit

Grades 9 ~ 12

This program is designed to teach the fundamentals of electricity and robotics. The students will be introduced to safety, construction, power, energy, AC and DC circuits, home applications, and communications systems. The exploration of robotics will include research and design, problem-solving, and practical applications. The students will acquire knowledge and skill in these areas through academic and hands-on experience. Grades will be based on written exams and performance evaluation.

5806 RESIDENTIAL STRUCTURES

.5 Credit

Grades 10 ~ 12

This course is designed to provide an overview of basic home construction, repair and maintenance. Students will learn framing, electricity, plumbing, roofing and masonry while also learning to follow the appropriate safety protocols. The goal of this course is to give the student the necessary skills to work at home, while also providing an opportunity for students to see what vocational fields they may be interested in pursuing.

5950 COLLEGE ROBOTICS

SUNY Farmingdale (MET 215)

1 Credit, 3 Credits SUNY Farmingdale

Grades 10 ~ 12

This course will cover various applications of basic principles of statics, strength of materials, electrical principles, introduction to basic principles of electromechanical control systems and introduction to robotics and automation systems. Students will work on independent projects related to various engineering concepts by utilizing various CAD software. This course can lead to college credit through SUNY Farmingdale.

5853 COLLEGE ENGINEERING

(TEL 1010)

1 Credit, 3 Credits *SUNY Oswego*

Grades 11 ~ 12

TEL 101 Engineering Graphics and Technical Illustration is a study of engineering graphics as a medium: for communication and problem solving. The course content will include a contemporary systematic process for the development of graphic representations to communicate ideas, objects, or systems. Instruction will address standards and practice accepted as universal language within the global society. Emphasis will be placed on skills development through hands-on laboratory experience. The course will meet 1 period a day for a full year. In order to receive college credit through SUNY Oswego students must complete a portfolio and receive a minimum of a 70 on the final exam which is provided by SUNY Oswego.

5850 COLLEGE ARCHITECTURE & CONSTRUCTION (ARC 101)

1 Credit, 3 Credits *SUNY Farmingdale*

Grades 10 ~ 12

Prerequisite: Design & Drawing for Production

This is an introduction to elementary concepts, literacy and graphics in the architectural and construction field. This elective course is for students who have never taken any hand drawing/drafting and Computer Aided Drafting (CAD). This course will provide a hands on experience in architectural construction drawing/drafting, sketching, model building, orthographic projection. The use of reading scales, lengths, areas, and volumes in drawings is developed

to help students visualize and understand building elements and plans. The course will include basic CAD fundamentals, site visits and future employment requirements and opportunities for those interested in the major.

5916 SMALL ENGINE/BASIC CAR MAINTENANCE

.5 Credit

Grades 10 ~ 12

Small Engines is a course consisting of the mechanics, maintenance, and repair of small internal combustion engines and products that use them. Differentiation between the mechanics of a 4 stroke engine and a 2 stroke engine will be covered as well as many of these small engines use both platforms. In this course, students will learn the basic mechanics of how an internal combustion engine works, what designates displacement of an engine, how spark and compression are achieved and how they can be tested. Students will be encouraged to find their own projects to bring in form repair, rebuild, maintain or to build from the ground up.

**5810 | ADVANCED
WOODWORKING (Material
Processing)**

1 Credit

Grades 10 ~ 12

This course will combine aspects of engineering with wood and metal and provide students an opportunity to develop skills and knowledge in manufactured materials. Students will be instructed in the safe and proper use of tools, machines, and the materials commonly used in the manufacturing and construction industries by constructing products with these resources. Students will develop the personal skills and knowledge necessary to form a foundation for further study in a variety of occupational areas and careers.

World Language

World Language Department

Ms. Michele Ortiz, Director

GRADUATION REQUIREMENT: In order to earn a NYS Regents Diploma, a student must successfully complete at least one credit in World Languages and pass a Checkpoint A assessment. In order to earn a NYS Regents Diploma with Advanced Designation, a student must successfully complete two additional credits in World Languages AND they must pass a Checkpoint B assessment in that language.

6100 SPANISH 1R

1 Credit, Grade 9

Language 1R leads to a local Checkpoint A exam at the end of the course. Students who pass the course and the local Checkpoint A Exam will earn one High School credit. The course focuses on everyday proficiency skills in the interpretive, interpersonal and presentational modes of communication. In addition to functioning successfully in a language other than their own, students gain awareness of and appreciation for another culture. Examination is based primarily on the ability to communicate in the target language in a variety of everyday situations as outlined by the NY State Standards for World Language.

6301 FRENCH 2R

6201 ITALIAN 2R

6101 SPANISH 2R

1 Credit, Grade 9

Prerequisite: Language 1R

Students in language 2R will be expanding upon topics addressed in Language 1R. The emphasis will be on improving the degree of accuracy and scope of their ability to communicate. Cultural authenticity will continue to play a significant role. Once again, evaluation will be based upon successful communication in the target language, with a district-wide final examination. The three modes of communication are addressed with a proficiency level goal of Novice High-Intermediate Low.

6302 | FRENCH 3R

6202 | ITALIAN 3R

6102 | SPANISH 3R

1 Credit, Grade 10

Prerequisite: Language 2R

A continuation of language 2R culminating in the Checkpoint B Local Examination. Students who successfully complete a language level 3 course and pass the Local Language examination satisfy the requirements for the Levittown Advanced Regents Diploma. A proficiency goal of Intermediate Low is anticipated to be reached by the Level 3 students.

6312 | FRENCH 3 HONORS

6212 | ITALIAN 3 HONORS

6112 | SPANISH 3 HONORS

1 Credit, Grade 10

Prerequisite: Language 2R (teacher recommendation)

These courses are designed to provide challenging language communication skills for the honors level student. A continuation of language 2R topics with an increased emphasis on advanced accurate speaking, listening, reading and writing skills, these courses culminate in the Checkpoint B Local Examination which satisfies the requirements for the Levittown Advanced Regents Diploma. A proficiency goal of Intermediate is anticipated to be reached by the Level 3 Honors students.

6353 | FRENCH IV Molloy University
(FRE 1010/FRE 1020)

6253 | ITALIAN IV Molloy University
(ITA 1010/ITA 1020)

6153 | SPANISH IV Molloy University
(SPA 1010/SPA 1020)

1 Credit HS & 6 Credits Molloy University

Grade 11

Prerequisite: Language 3R

This course is available to those students who have successfully completed the Checkpoint B course of study. Students in the full year French, Spanish, and Italian courses may elect to earn six college credits through the Molloy University Long Island High School Program for a nominal tuition fee. The course content has two primary focuses. One is the introduction, usage, and mastery of more advanced grammatical structures. The second is a comprehensive and broad-based exposure to reading including: literary excerpts, magazine articles, essays, advertisements, and other current materials. The three modes of communication, interpersonal, interpretive and presentational will be used to achieve a proficiency range of intermediate low - intermediate high.

6163 | SPANISH 4 PRE-AP Molloy University

(SPA 1010/SPA 1020)

1 Credit HS & 6 Credits Molloy University

Grade 11

Prerequisite: Language 3H or teacher

This course is available to those students who have successfully completed the language 3 Honors Checkpoint B Course of study. Students may elect to earn six college credits through the Molloy University Long Island High School Program for a nominal tuition fee. The course content is an introduction to AP Language communication skills and grammatical structures. The proficiency goal for this course is Intermediate High.

6354 | LOTE - FRENCH V Molloy University *(FRE 2010)*

6254 | LOTE - ITALIAN V Molloy University *(ITA 2010)*

6154 | LOTE - SPANISH V Molloy University *(SPA 2010)*

1 Credit HS & 3 Credits Molloy University

Grade 12

Prerequisite: Language 4

This course integrates and enhances all three modes of communication: Interpersonal, Interpretive and Presentational while exploring culture, customs and civilizations. Films, television programs, literature and cookbooks will be presented to develop a greater global understanding of target-language culture. Students will have the opportunity to apply for the NYS Seal of

Biliteracy. The proficiency goal for this course is Intermediate High.

6375 | AP FRENCH Molloy University

(FRE 2010)

6275 | AP ITALIAN Molloy University

(ITA 2010)

6175 | AP SPANISH Molloy University

(SPA 2010)

1 Credit HS, & 3 Credits Molloy University

Grade 12

Prerequisites: Language 4, 4 Pre-AP

The AP level class consists of a survey of an intensive and comprehensive expansion of all four language skills: listening, speaking, reading, and writing. This course is recommended for those students who have acquired proficiency in the basic skills, are able to read critically, discuss perceptively, and express written opinions and reactions well. Students achieving a grade of 3 or above can receive varying credits (from 4 - 6 credits) at most colleges or universities as well as advanced standing in the language. The AP courses prepare students for the AP language exam. Transcripts of students who do not take the AP Examination in French, Italian or Spanish will show that the student took an academic level of this course, not an AP course. Students will have the opportunity to apply for the NYS Seal of Biliteracy.

**6004 VOICES & CULTURES - A
Study of Less Commonly Taught
Languages**

(Daily for ½ Year)

.5 Credit HS

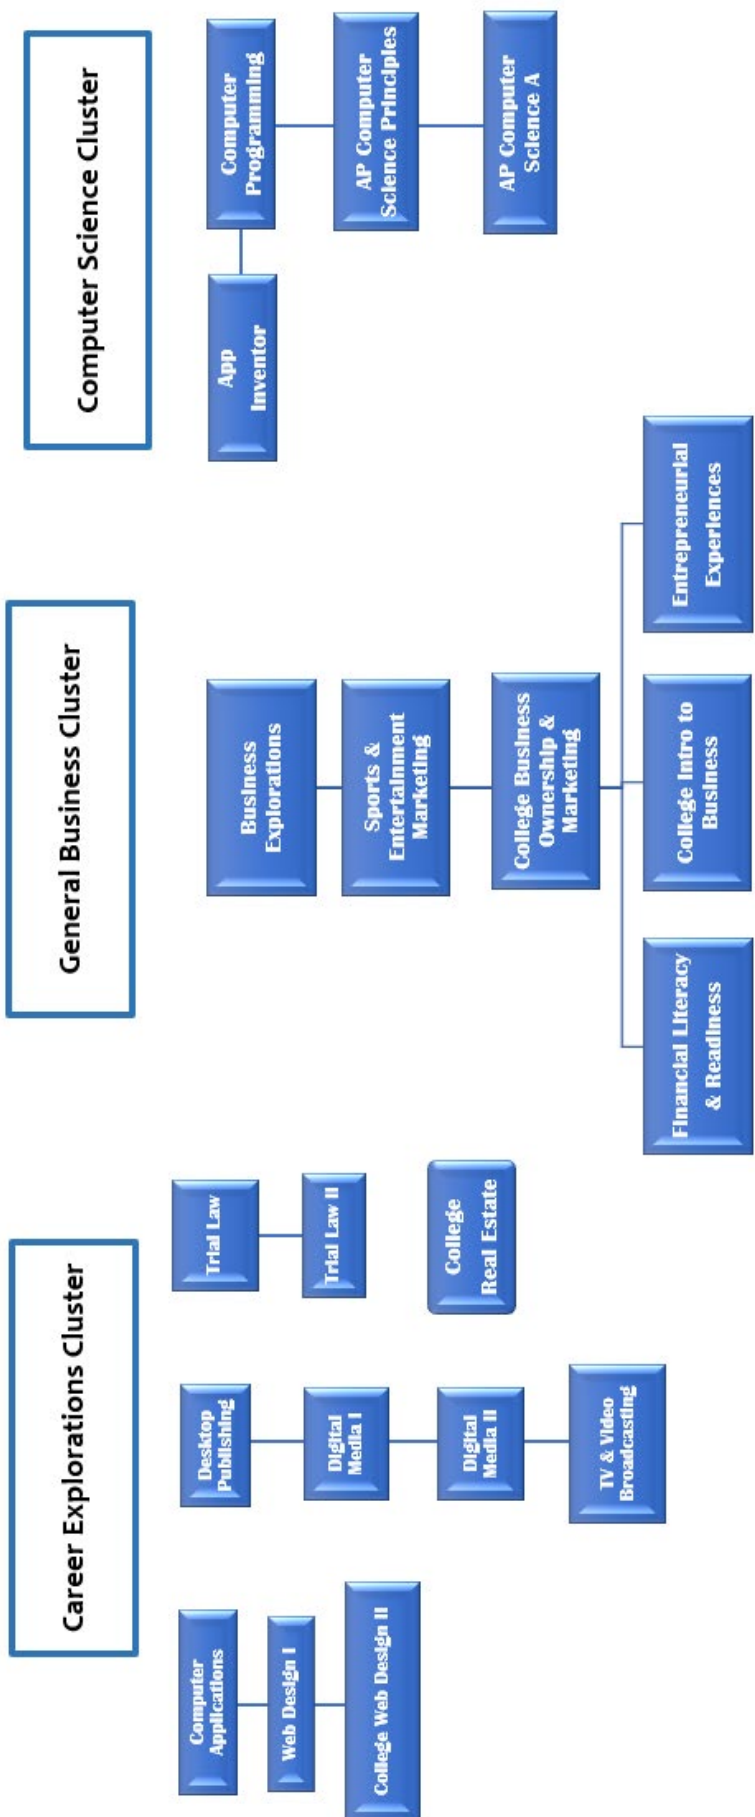

Grades 11 ~ 12

*Note: Does NOT count towards World
Language credit.*

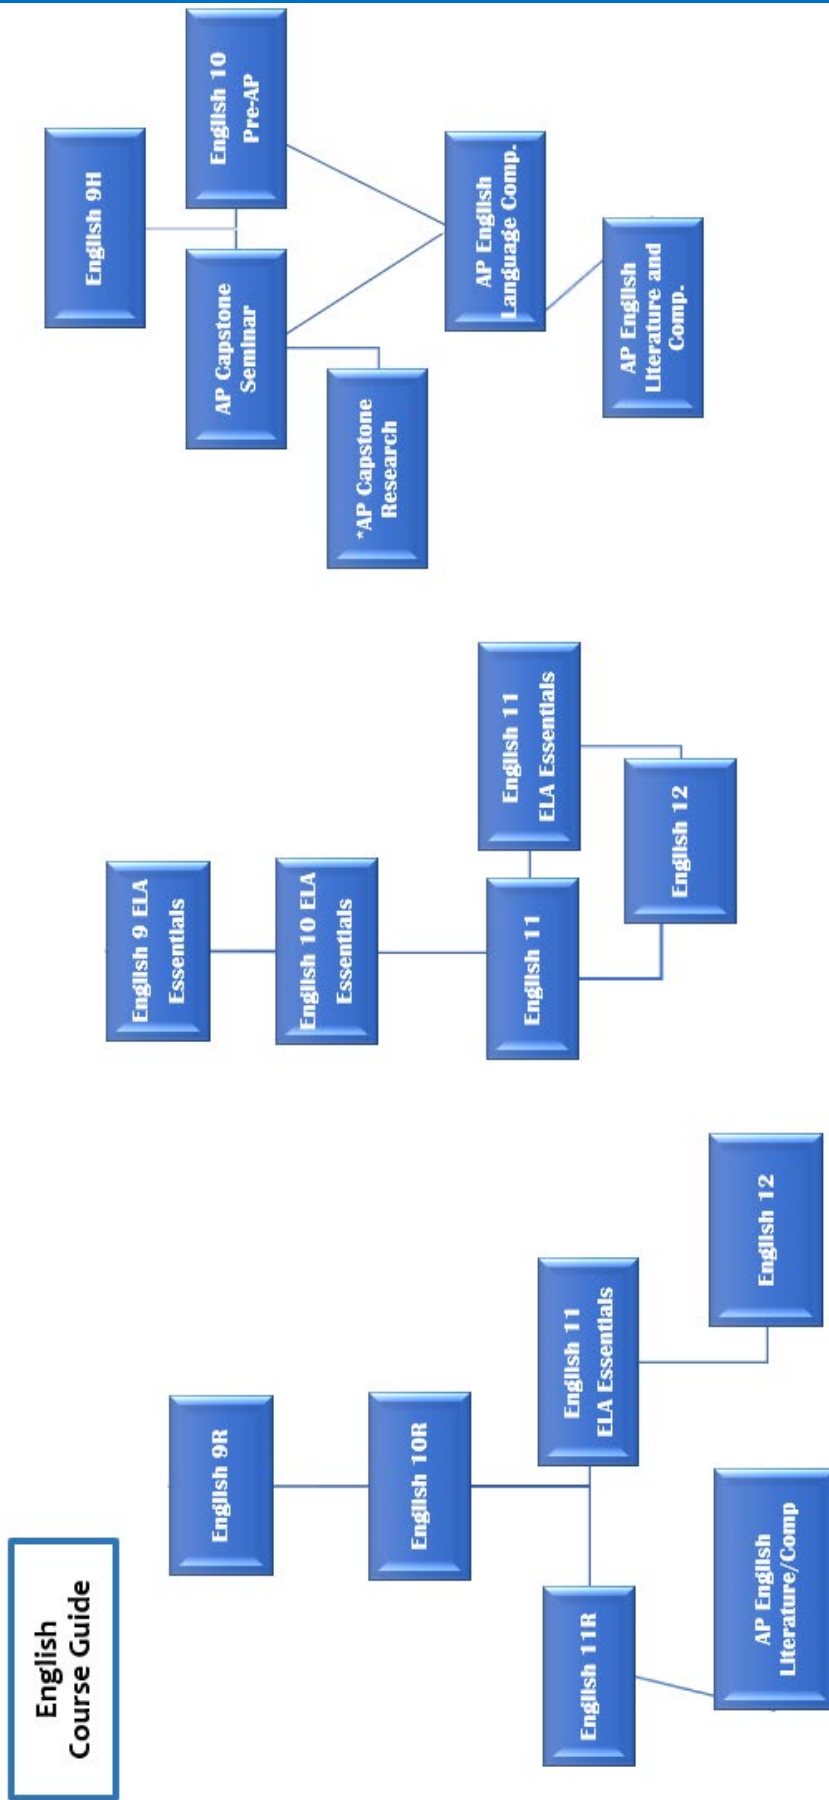

Voices and Cultures is an engaging course that introduces students to less commonly taught languages, traditions, and cultural practices from around the world. Through music, film, storytelling, art, and guest speakers, students explore a variety of global cultures.

All Department Pathways

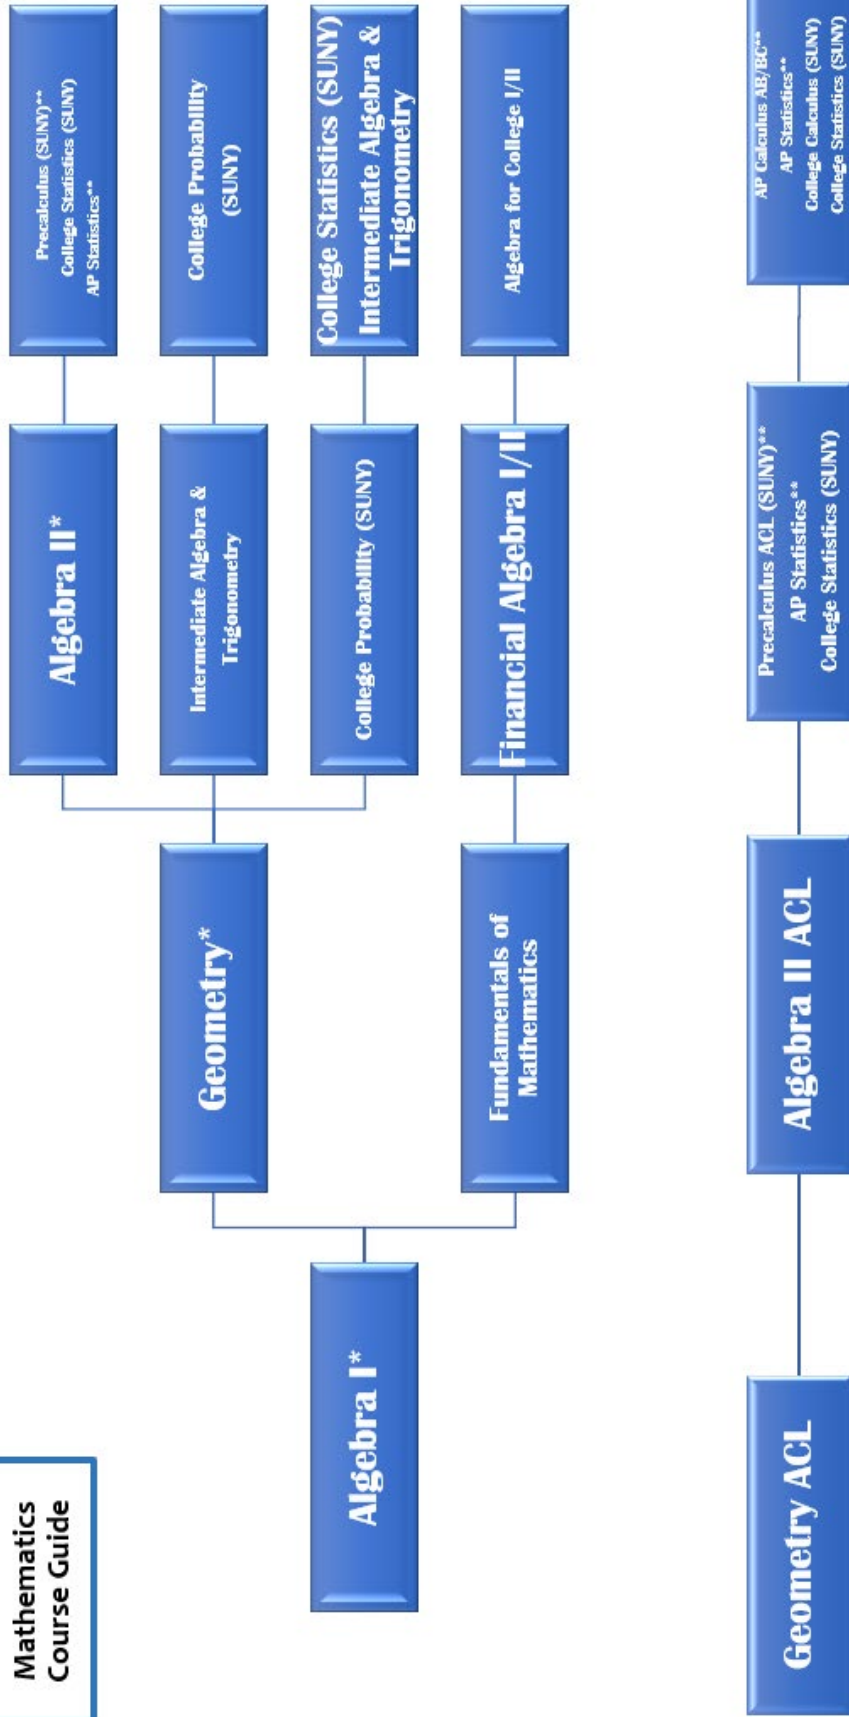

- The pathway map above is designed to show which Business course offerings align together within a suggested pathway for students that may have an interest in a particular area of Business Education; students do not have to adhere to a pathway in its entirety.
- Students may take courses in one or more of the clusters if they so choose.
- Students may take some Business classes concurrently in the same academic year within each cluster.

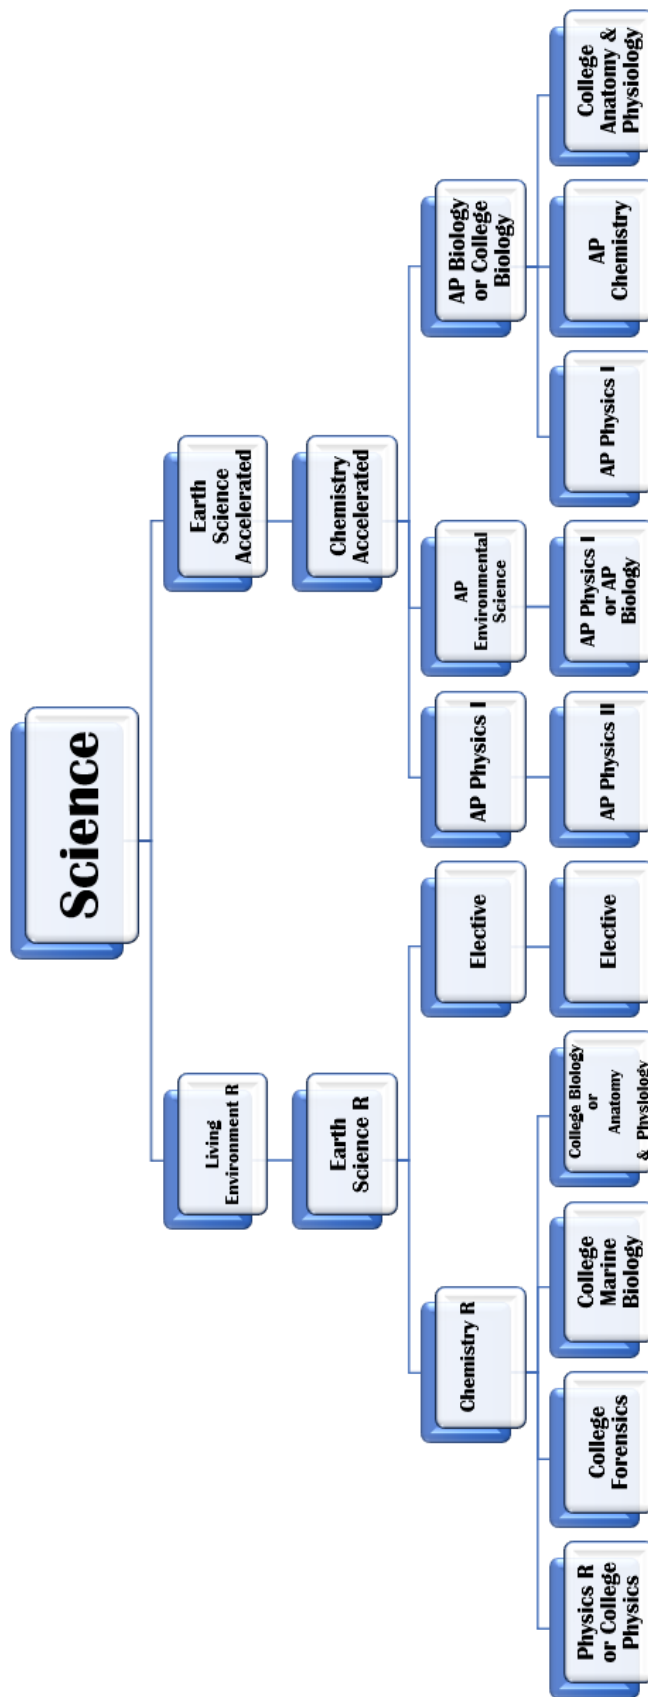

➤ * AP Capstone students have the choice to take AP Capstone Research in either 11th or 12 grade.

**Mathematics
Course Guide**

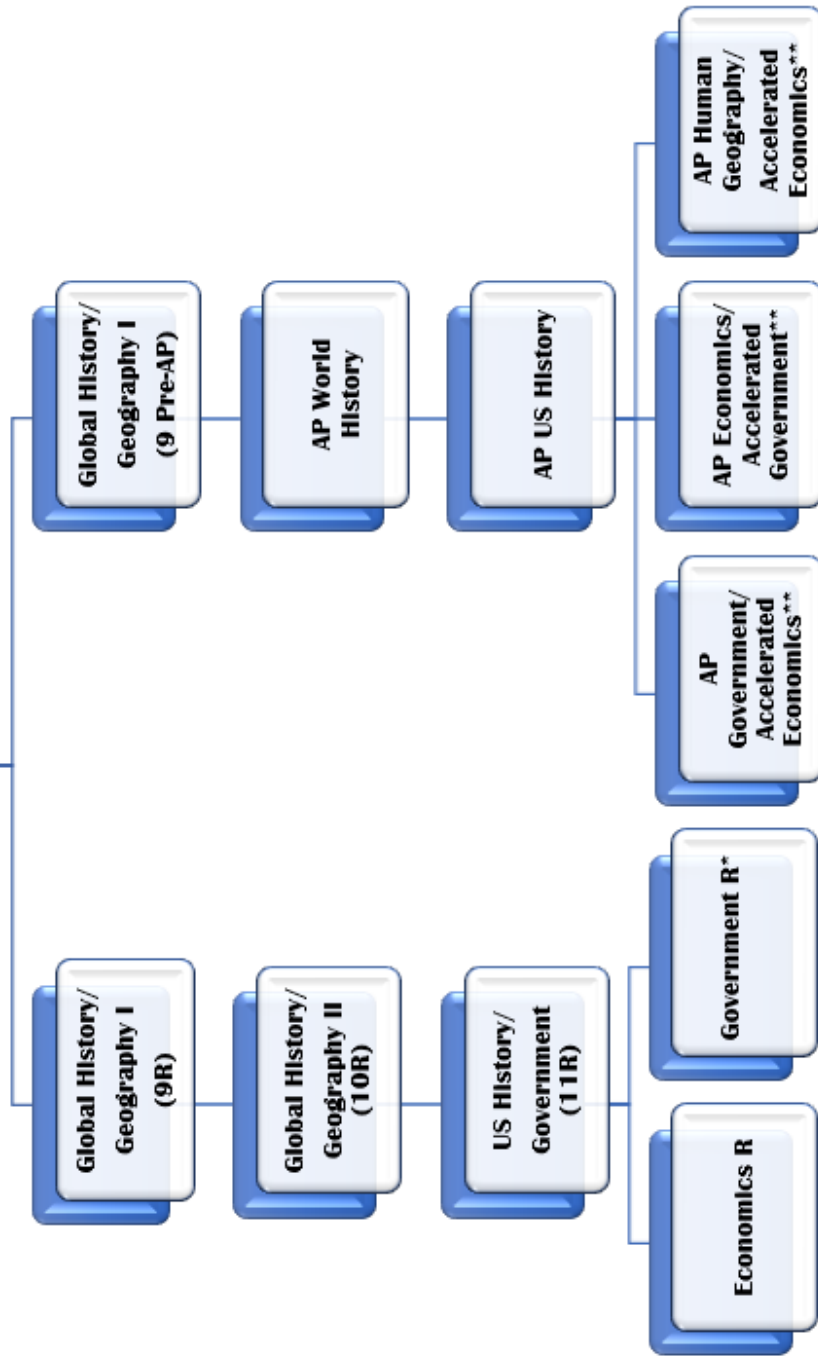

- *Students entering Algebra I who are identified as needing AIS services will be scheduled for an additional alternate day support period.
- **Students have the option to take both courses concurrently in the same academic year.

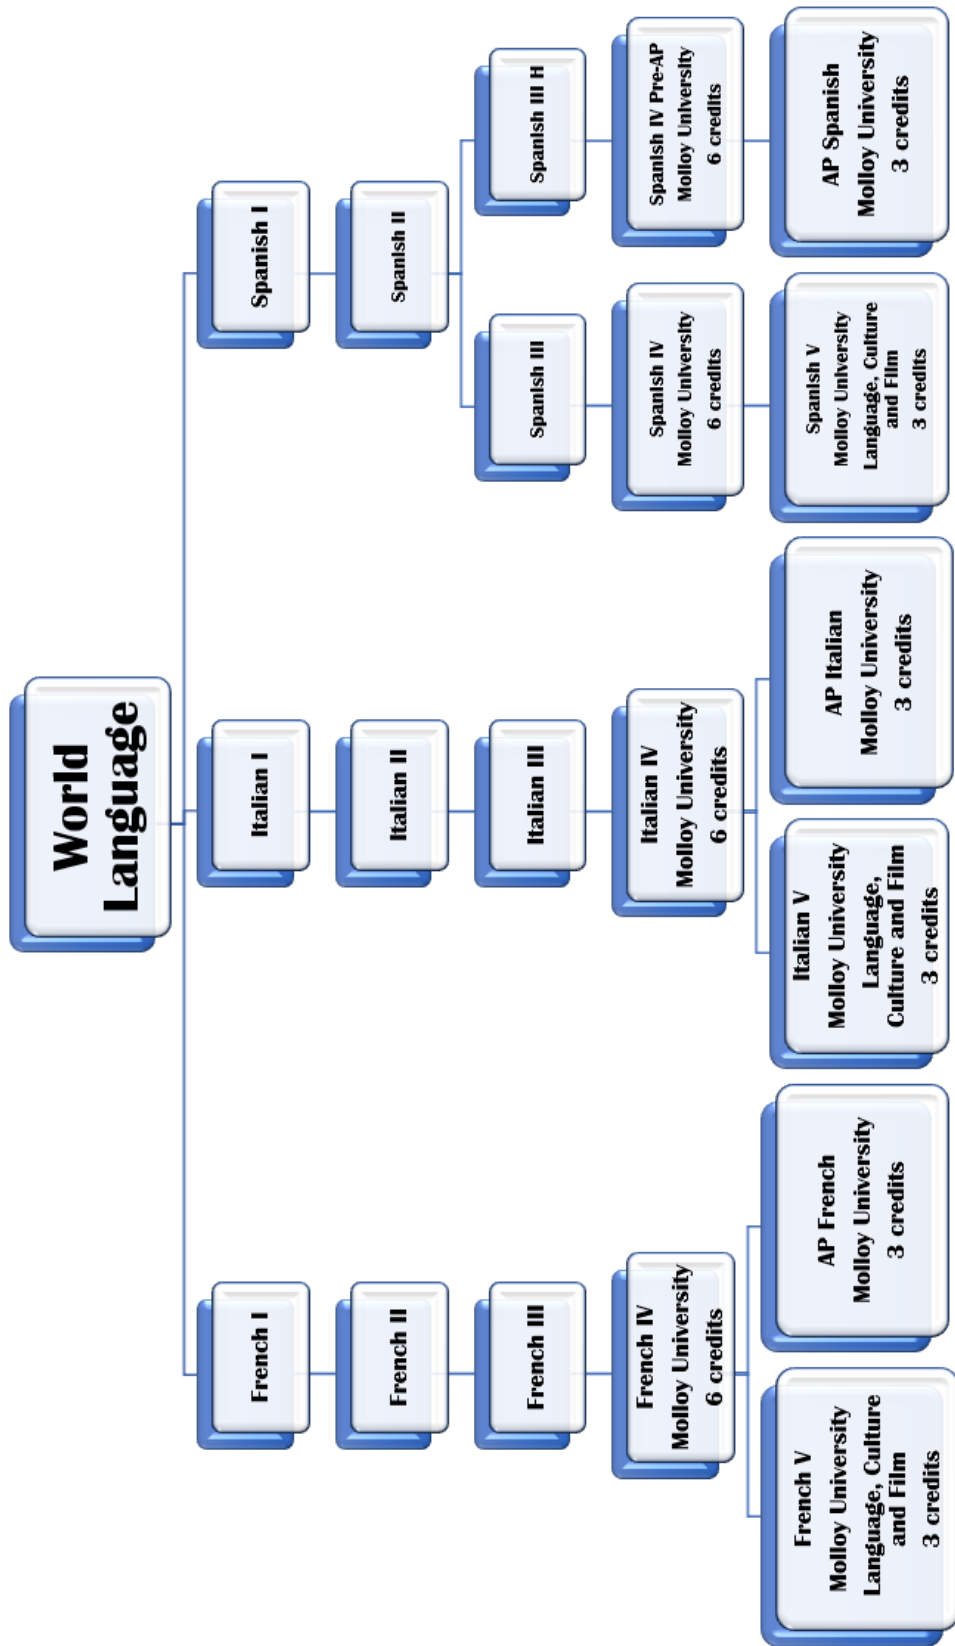

➤ Students with future ambitions in the area of Science should consider taking AP Physics I and AP Biology in Grade 11 and AP Physics II and AP Chemistry in Grade 12.

Social Studies

➤ *The following classes may be substituted for Government R: Current Legal Issues, Human Rights Issues, History of the Presidency

➤ ** AP Human Geography may be substituted for Economics & Government

➤ Level 5/AP courses cannot earn college credit without purchasing the 6 Prerequisite credits from Molloy University for the Level IV course.

District Policies and Procedures

District Policies

This course catalog is not meant to contain a comprehensive review of District Policies; however, a summary of pertinent information is provided below. If further clarification is needed, please consult Board of Education policies which are available at www.levittownschools.com or in the main office of each school building.

Attendance

Excessive student absences can lead to a denial of credit. See the Board of Education Policy #7110 for complete details.

Course Credit

A student who has passed a course may not repeat the course for credit or take a lower-level course for credit (unless otherwise noted in these course descriptions).

Prerequisites/Co-requisites

A student may not enroll in a course that requires a prerequisite or a co-requisite unless he or she has satisfied that prerequisite or received special permission.

Absences for Regents Exam Administration

If a student misses the exam for whatever reason, a grade of zero (0) will be averaged into the course grade, unless there are extenuating circumstances:

1. Students who absent themselves from Regents exams for reasons such as vacation, oversleeping or other illegal rationale, will have a zero averaged into the course grade.
2. Students who miss Regents exams for reasons such as illness, death in the family, or other unavoidable circumstances, will have their cases reviewed. If, after review, the student is granted an exemption, the zero will not be averaged into the final course grade. However, the student must take the Regents exam at the next available opportunity in order to qualify for Regents credit.
 - a. If the student passes the course, even after the zero is averaged in, he or she still must take the Regents exam in order to qualify for Regents credit. The final course grade will not be recalculated to include the Regents exam when taken, but the zero previously recorded on the transcript will be replaced, as per current district policy. If a student fails a Regents course, he or she must repeat it for credit.

Course Change Procedures

The Levittown School District is proud to offer a comprehensive educational program to meet the needs and interests of all students. Each year in December, January, and February students and parents collaborate with our school counselors to choose appropriate and interesting courses for the upcoming school year. The course selections are then used to arrange for appropriate staffing, purchase textbooks, and other class resources, and assign classroom space. While our schedule is primarily student driven, there is always the possibility that a class will close early due to heavy enrollment or that a class will not be scheduled due to an insufficient number of students electing that subject.

Based upon these factors, changes requested after the scheduling process has been completed are discouraged. We have found that once students give their scheduled classes a chance to begin, most are satisfied with their initial choices.

There are some instances where class changes are unavoidable. All requests for class changes are subject to the guidelines below:

- It is in the student's best interest to have the appropriate schedule in place at the time school opens. Every effort is made to provide students with a schedule commensurate with state and district guidelines and personal post graduate plans prior to the opening of school in September. Once schedules are released on the Parent Portal, changes will not be considered until after four weeks of school (with the exception of scheduling errors).
- Students are required to work to their fullest potential prior to making a request for any schedule change. Students must demonstrate that they have attempted to fulfill all course expectations, e.g., completion of all assignments, seeking extra help, and have met all other conditions established by the teacher. Students must continue to attend and participate in the class until a decision is rendered and they receive notification from their counselor or administrator.
- Students enrolling in a course after the start of the semester are responsible for all course expectations. This includes coursework covered prior to the student's enrollment. The student is responsible for developing a work completion schedule with the teacher.

- **Level Changes** – These requests are for a student to be moved from the same course name, at a different level. For instance, a student is enrolled in AP US History and Government but is struggling and is requesting a course change to Regents U.S. History and Government. These are changes within the same subject area. Class changes between departments are not considered level changes. Level changes will only be considered if the student has met the requirements outlined above.
- **General course changes** (not level changes) – Requests for course changes (both core courses and elective courses) will be considered along the same timeline as mentioned above. Changes will only be considered if there is satisfactory space* in the new class and there is a compelling reason for the change. Not all requests will be approved. The student is responsible for developing a work completion schedule with the teacher.
- A change of teacher within the same course is not permitted.**
- Change requests for lunch periods are only approved with a doctor's note.
- Any change in schedule may impact student overall schedule, athletic eligibility and/or college admissions.

Process for schedule changes:

- Student picks up Change of Placement form from his/her Guidance Counselor.
- Parents contact the teacher and/or Guidance Counselor to discuss reasons for change.
- Teacher meets with the student.
- Student returns form signed by parent to Guidance Counselor.
- Form is routed to the teacher and Assistant Principal for approval.

* For all students to be successful in an academic setting, class size and balancing is important to consider. This will include consideration of class size maximums, as well as ensuring appropriately balanced classes (ex: not having one class of 5 students and another of 29 for the same course)

** Unless the student had the assigned teacher previously.

Graduation Requirements

I. The Board of Education will determine the graduation requirements for the school district in accordance with any specific Regulations of the Commissioner of Education. The Board may establish graduation requirements that exceed the minimum standards set by the Board of Regents. The District will award the appropriate diploma, credential, or both to students as designated by New York State. The Superintendent will develop regulations setting forth the diploma requirements.

II. Financial Literacy Requirement: In an effort to prepare students for post-secondary life, the Board of Education requires that all students demonstrate competency in financial literacy by earning $\frac{1}{2}$ elective credit in a district approved financial literacy course.

III. Students in grades 9, 10 and 11 will be fully scheduled. Students in grade 12 will be scheduled for a minimum of 5 periods plus physical education.

LEVITTOWN PUBLIC SCHOOLS
