

2023-24 Consolidated Application for ESSA-Funded Programs - 2023Introduction - Executive Summary

Executive Summary

LEVITTOWN UFSD - 280205030000

The New York State Education Department (NYSED) has developed the online *2023-24 Consolidated Application for ESSA-Funded Programs* to support the timely administration of programs funded by the Every Student Succeeds Act (ESSA) to local educational agencies (LEAs) across the state. The application is streamlined to focus on the required assurances from Section 8306 of ESSA, as well as fiscal and programmatic information that staff have determined is necessary to properly administer each program. The additional information requested in the application will allow NYSED reviewers to ensure that all LEAs are fully prepared to effectively address key provisions of ESSA regulations. For example, the application includes a significant focus on consultation with required constituent groups in the design of ESSA-supported programs. Even though LEAs will provide assurances that consultation has occurred, NYSED has determined that evidence of that consultation should be provided as part of the application process. Toward that end, documentation of the constituent groups included in consultation, along with an *LEA Affirmation of Private School Consultation* form will be required as part of the initial application.

The online format dramatically improves NYSED's capacity to collect and analyze district-provided data in a timely manner, and then utilize that data to provide targeted support to LEAs as part of shared continuous improvement efforts. For example, the format will allow NYSED to quickly review LEA-determined per pupil amounts for Title I, Part A programs to confirm that funds for services are appropriately distributed among eligible public and non-public schools. For LEAs whose calculation methodologies are not clear or are not consistent with ESSA requirements, NYSED program staff will be able to provide immediate technical assistance to ensure the proper distribution of funds.

The online application also supports better coordination among NYSED program offices – furthering the Department's capacity to support continuous improvement through technical assistance. For example, consultation forms and other data related to equitable services to private school students and teachers will be shared with the Ombudsman to help coordinate technical assistance and monitoring efforts between the Office of ESSA Funded Programs and the State Office of Religious and Independent Schools. Similarly, data about an LEA's use of Title II, Part A funds will be easily shared with District and School Review Teams from the Office of Accountability and the Office of Educator Quality and Professional Development to help LEAs maximize the use of evidence-based professional development strategies in identified schools.

Questions about the *2023-24 Consolidated Application for ESSA-Funded Programs* may be directed to the Office of ESSA Funded Programs at 518-473-0295 or via email at conappta@nysed.gov.

On-going data analysis indicates that the impact of the loss of in-person instructional time resulting from the pandemic is still affecting students in Levittown. Student performance is determined by multiple measures including i-Ready assessments, classroom assessments, benchmark assessments, NYS assessments or Regents exams. A plan was created in the 21-22 school year to work towards the goal of increasing our percentage of students making on grade level standards in phonemic awareness for our students in grades K-2. This deficit area was identified using the AIMSWeb and i-Ready benchmark assessments.

In September 2021, 55% of our Grade 1 students and 23% of our grade 2 students were below grade level in the area of phonemic awareness. In spring of 2022, 21% of our grade 1 students and 7% of grade 2 students were below grade level in phonemic awareness. Kindergarten students do not take the fall diagnostic. Their scores will be measured from their initial screening in January. In January 2022, 35% of our kindergarten students were below grade level. By the spring, only 14% of our students were not making grade level standards in the area of phonemic awareness.

In September 2022, 64% of our Grade 1 students and 17% of our grade 2 students were below grade level in the area of phonemic awareness. In spring of 2022, 28% of our grade 1 students and 3% of grade 2 students were below grade level in phonemic awareness. Kindergarten students do not take the fall diagnostic. Their scores will be measured from their initial screening in January. In January 2023, 33% of our kindergarten students were below grade level. By the spring, only 12% of our students were not making grade level standards in the area of phonemic awareness.

In order to continue to address the area of phonemic awareness the Levittown School District will provide direct instruction in the area of reading for students in grades K-12. In the elementary grades, students will be provided with direction instruction in the area of phonemic awareness through the Heggerty program (in grades K and 1) and Bridge the Gap (grade 2).

In order to improve performance at our Title 1 schools, funds have been allocated for additional teaching staff for the effective implementation of research-based programs such as Heggerty Phonemic Awareness (K-1) and the i-Ready instructional pathway for all (grades K-8). This staff will help build foundational skills in the elementary grades and reading comprehension skills in elementary, middle school and high school. Funds will be allocated to support salaries of Reading Teachers to support instruction. The i-Ready instructional program will be utilized in different capacities. The program will be used to provide differentiated instruction for students based on their need for all students in their Core ELA classes. It will also be utilized in the pull out reading program, where the reading teachers will support the small group instruction.

3. **In the space below, please describe the specific goals and/or outcomes the LEA has identified based on the information provided above. The goals/outcomes should be measurable and aligned directly to the above identified needs impacting student achievement.**

Levittown School District has set in place a program that has a positive impact on student academic achievement that aims to eliminate achievement gaps between low-income and minority students from other students. Teachers and administration meet and discuss student needs in the buildings and then create academic programs to meet the needs of all students. Students are provided small group targeted instruction in deficit areas to strive to close achievement gaps for all students.

Based on data from the 22-23 school year, students made at least 50% progress towards their stretch growth and met their goal. The goals of the Title 1 23-24 program are to meet the needs for students at academic risk by providing reading teachers to support students with the greatest need. The goal is, by the close of the 2023-2024 school year, for at least 50% of students served by Title 1 Schools will have met their typical annual growth and at least 25% would have met their annual stretch growth from the fall diagnostic of 2023 to the spring diagnostic of 2024.

Hope For Youth operates community based group homes which provide services for youth in placement through the Department of Social Services or the Family Court. Most of the youth served by Hope For Youth have experienced prior academic failure, show low test scores in basic areas, and had behavioral difficulties within the school setting. Many of these youth have Axis I psychiatric disorders which may be complicated by a co-occurring substance abuse diagnosis

Based upon records requested upon student admission to Hope For Youth and self reported inventories, students have demonstrated deficits in areas including, but not limited to:

1. Below average reading and math skills;
2. Time management skills;
3. Study skills;
4. Consistent school attendance;
5. Timely completion of class assignments and homework assignments;
6. Class and state exams.
7. High School credit recovery

Title I, Part D funds allocated to the Hope For Youth Program are designed to address the students' academic, behavioral and social emotional needs at time of entrance to Hope For Youth, through their length of stay and up until their transition and exit of the program.

Upon placement:

1. It is determined whether students will attend the Levittown School District or the Hope For Youth full day education program;
2. Students meet with the Education Coordinator or Program Manager for self reported inventory to determine their specific academic needs related to reading, math, study skills and their core subject areas;
3. Areas of weakness are targeted in Hope for Youth after school tutoring program in addition to other services the agency may have to offer;
4. Contact is made either by the Program Manager or the Education Coordinator with the students' home school district;
5. Report cards, progress reports, and transcripts are shared with the Program Manager and Education Coordinator who in turn keep tutoring staff informed of students' progress and needs.

On-going data analysis indicates that the impact of the loss of in-person instructional time resulting from the pandemic is still affecting students in Levittown. Student performance is determined by multiple measures including i-Ready assessments, classroom exams, benchmark assessments, NYS assessments or Regents exams. A plan was created in the 21-22 school year to work towards the goal of increasing grade level performance in the area of numbers and operations for our K-2 students. In order to attain this goal, an emphasis is placed on small group instruction, including the reduction of teacher to student ratios. This includes instruction in mathematics for our neediest students.

Levittown School District provides small-group targeted instruction for students who are identified for needing support services through these assessments. Meetings are held throughout the school year to discuss students' data and needs. Instruction is provided to students on an as needed basis. Classroom size reduction teachers push-in to classrooms to provide small group instruction. Class sizes are reduced in half with the extra push in teachers.

The Levittown School District provided instruction for all on i-Ready this school year. The program was used in different capacities. Students were provided individualized lessons based on their need in their Core Math classrooms. The Title II CSR teachers utilized this program in their pull out programs as well. Teachers will continue to utilize training in First in Math and Math and Movement to provide a multisensory approach to math instruction for our diverse learners.

3. In the space below, please describe the specific goals and/or outcomes the LEA has identified based on the information provided above. The goals/outcomes should be measurable and aligned directly to the above identified needs/obstacles impacting student achievement.

Levittown School District has set in place a program that has a positive impact on student academic achievement that aims to eliminate achievement gaps between low-income and minority students from other students and ensures equity of educational opportunity for all students. Teachers and administration meet and discuss student needs in the buildings and then create academic programs to meet the needs of all students. Along with specific programs targeted to students in reading and mathematics, Title II funds will be used in conjunction with other building-level supports to reduce class size with push in teachers.

Based on data from the 22-23 school year, students made at least 50% progress on their stretch growth. The goals of the Title IIA program for 23-24 is to provide reductions in teacher to student ratios in order to improve academic outcomes for students. These outcomes are operationalized through scores on i-Ready assessments, classroom exams, and qualitative teacher observations. The goals of the Title II 23-24 program are to meet the needs for students at academic risk by providing Math CSR teachers to support students with the greatest need. The goal is, by the close of the 2023-2024 school year, for at least 50% of students will have met their typical annual growth and at least 25% would have met their annual stretch growth from the fall diagnostic of 2023 to the spring diagnostic of 2024.
