September 2025

Dear Parent/Guardian of 12<sup>th</sup> Grade Students:

The MacArthur Guidance and Counseling Department will be partnering with some of the local colleges in our area for the Fall 2025 On-Site Admissions program. College admissions counselors will visit MacArthur on scheduled dates to conduct interviews/review application files to grant admission into their college or university on the spot. **Application fees will be waived** for all students who participate.

Please refer to the enclosed On Site Admissions Summary page to find a list of schools that will be taking part in this event as well as each college's specific requirements for On-Site Admissions.

Please be aware of the following:

- Students who do not meet the requirements for a specific college may submit the completed application by the deadline and get the fee waived, however those students will not get an On-Site appointment.
- Please review the chart carefully as some institutions are unable to make decisions during On-Site for select majors.
- Students who are unable to make their appointment on the posted day for any reason (field trip/absence/etc.) can submit their application ahead of time and get the fee waived. However, the colleges will only be meeting with students on the posted days. If a student cannot make their allotted time slot, please check with your counselor to see if the appointment can be changed.
- It is the student's responsibility to make sure their On-Site application is complete. **Only those students who have submitted applications AND returned a completed green online application form to the guidance office by the deadline** will be given a scheduled appointment time to meet with the college admissions representative.

We strongly encourage you to take advantage of this opportunity and look forward to a very successful experience for all involved. If you have any questions regarding On-Site Admissions, please feel free to contact your child's counselor.

Sincerely,

*Cormac Conaghan*

*Elizabeth Hammer*
