February 2023

Dear Parents and Guardians,

The i-Ready Parent Report is now available on the Parent Portal. i-Ready is an online program that helps us determine your child's strengths and areas for growth, personalize their learning, and monitor their progress throughout the school year. Adaptive tests, such as i-Ready, match the difficulty of test questions to the ability of each student. As students answer questions correctly, the test gets more difficult. As students answer questions incorrectly, the test gets easier. In both cases, the test adapts to find the precise ability of the test taker. The purpose of this is not to give a score or grade, but to provide teachers with an individualized instructional course of action based on each student's unique needs.

The Parent Reports from our i-Ready instructional program will be viewable in a digital format each assessment period (fall, winter, spring). In order to view the parent reports, please log in to PowerSchool Parent Portal using Chrome on a computer or tablet (you cannot access the reports on Internet Explorer or the PowerSchool App). Select the icon for *Assessment Reports* which will bring you to the assessment report page (Webedge). Once there, select the menu icon  on the top left. Select i-Ready reports, then the i-Ready dropdown which will bring you to the i-Ready folder. Choose the appropriate subject (reading or math) to view the report. These reports show student performance in reading and mathematics on our i-Ready diagnostic assessments. Information includes overall scores, as well as a breakdown into various subskill performance areas. Attached to this letter is an informational sheet on how to read the parent report.

i-Ready Diagnostic & Instruction assesses and teaches the following subskill areas:

Reading

- Phonological Awareness • Phonics • High-Frequency Words • Vocabulary • Comprehension

Math

- Number and Operations • Measurement and Data • Algebra and Algebraic Thinking • Geometry

We are dedicated to developing students to their highest potential. After reviewing the reports if you have any questions, please reach out to your child's classroom teacher. As always, thank you for your continued support and for being a partner in your child's learning! It is much appreciated.

Thank you,

Michelle J. Kelly
Director of Elementary Education
